(57): The invention relates to a process for continuously producing chlorine dioxide comprising the steps of: feeding to
 a reactor an acid, a reducing agent and alkali metal chlorate; reacting the alkali metal chlorate with the acid and the
 reducing agent to form a product stream containing chlorine dioxide and the alkali metal salt of the acid; and, bringing
 said product stream from the reactor to an absorption tower, where it is contacted with a flow of water to form an
 aqueous solution containing chlorine dioxide. The invention also relates to an apparatus to produce chlorine dioxide. The
 invention further relates to a novel aqueous solution comprising of chlorine dioxide.

2.1 Applications accepted for registration

NOTICE is given that any person who has grounds of opposition to the Registration of any of the Industrial designs advertised herein may within sixty (60) days from the date of this Journal, lodge a notice of opposition on form IP 36 (in duplicate) together with a fee of Ksh.5, 000/= (local opponent) or US\$ 250 (foreign opponent).

The period of lodging the notice of opposition may be extended by the Managing Director as he deems fit and upon such terms as he may direct. Any request for such extension should be made to the Managing Director to reach him before the expiry of the period allowed.

Formal opposition should not be lodged until after a reasonable notice has been given in writing to the applicant to afford him any opportunity of withdrawing his application before the expense of preparing the notice of opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant.

Representations and samples of the designs advertised herein can be seen at the Patent Registry, Kenya Industrial Property Institute, Weights and Measures premises, Popo Road, off Mombasa Road, Nairobi.
