(57) FEVER FIX Gel is a product for controlling and managing fever. FF, unlike anti-fever medications, does not suppress fever but maintains fever within comfortable limits. A lot of current medical research discourage fever treatment and support the idea of managing fever. Unlike ingested fever medications, FF can be "fine tuned" (adjusted) to keep temperature at an optimum balance between immediate discomfort and longer term discomfort. A discomfort "index" could be thought of as the product of time and temperature. Especially in children, the trade-off may be a lower temperature for a longer period of endurance. FF comprises of alcohol, water, a buffer and a vehicle. Since FF is non-pharmaceutical it can be used in combination with other fever medications such as acetaminophen or ibuprofen. FF can, therefore, be used to compliment other fever medication. FF is especially recommended if:

The sick child is vomiting excessively and not be able to retain oral fever medication;

The sick child is allergic to acetaminophen or ibuprofen;

Child has a temperature of over 104 degrees Fahrenheit (40 degrees Celsius)

The fever does not go down even after medication;

The child has a history of febrile convulsions or someone else in his/her immediate family has had them.

This help to deter sellerrs of stolen item and inform potential buyers of an item about its status. Through inquiry the system can track lost or stolen items therefore assisting in recovery. With verification of items through the use of agents, employment is generated and integrity and credibility of the system is upheld. Verified items that are on sale will be placed on the portals' online market creating a secure online market with genuine sellers of items.

(54) Title: COCKROACHES INSECTICIDE

(57) Masi paste, crystals and powder is cockroaches insecticide manufactured by Mifo Enterprises since 2006 without poison to kill different species of cockroaches and their eggs after hatching: it also kills new cockroaches that come in many months after application.

Among other insect pests, cockroaches can come out of their outer cover of their bodies. Move from one place to another by crawling, flying, in containers e.g. bags, machines e.g. vehicles, liquid e.g. water, food e.g. bananas etc.

Cockroaches like dirty places e.g. dump sites, septic tanks, latrines holes. They also like clean areas e.g., kitchen, tables, drawers etc where they hide day time and come out at night and can infect you with typhoid and you spread in communities if you eat food they walked on.

Spray and contact cockroaches insecticide is ineffective considering how cockroaches move and where they stay.

Masi will kill cockroaches in hot and cold weather, clean dirty and dump areas, covered and exposed places e.g. inside rooms, vehicles, outside fenced walls, inside pit latrines holes and is not destroyed in contact with water or if rained on.
