

KENYA INDUSTRIAL PROPERTY INSTITUTE

INDUSTRIAL PROPERTY JOURNAL

(Journal of Patents, Industrial Designs, Utility Models and Trade marks)

No. 2022/07

31st July, 2022

Published Monthly

EDITORIAL

The Industrial Property Journal is the Official Journal of the Kenya Industrial Property Institute. Publication of the Journal is provided for under the Industrial Property Act, 2001 and regulation 7 of the Industrial Property Regulations 2002. The Journal is published monthly by the Institute as part of the procedures for protection of industrial property rights under the Industrial Property Act, No. 3 of 2001 and the Trade Marks Act, Cap 506 of the Laws of Kenya.

.....

PUBLICATION FEES FOR MARKS

	Foreign	Local
For the first class.....	US\$ 60	Ksh. 3, 000/=
For each subsequent class.....	US\$ 50	Ksh. 2, 500/=

The above-mentioned charges apply for all other matters required to be published under the Trade Marks Act, Cap 506 of the Laws of Kenya

.....

PUBLICATION FEES FOR PATENTS, UTILITY MODELS AND INDUSTRIAL DESIGNS

Foreign	Local
US\$ 150	Ksh. 3, 000/=

The above-mentioned charges apply for all other matters required to be published under the Industrial Property Act, No. 3 of 2001

.....

WIPO standards**INID CODES**

INID is an acronym for 'Internationally agreed Numbers for the Identification of (bibliographic) Data'. The codes are used on the first page of industrial property documents and in gazettes to identify the bibliographic data without knowledge of the language used and the industrial property laws applied. The following INID codes are used in this Journal:

Standard ST.9 and ST.80 for Patents and utility Models and Industrial Designs

- (11) Number of the document
- (12) Designation of the kind of document
- (15) Correction information
- (19) WIPO standard ST.3 code of the office or organization publishing the document
- (21) Application Number
- (22) Date of filing of application
- (30) Priority data
- (31) Priority Number(s).
- (32) Priority Date(s).
- (33) Priority Country(s).
- (41) Publication date of unexamined application
- (42) Publication date of examined application
- (45) Publication date of registered right/Date of registration
- (51) International classification.
- (54) Title of the Invention.
- (56) Cited documents
- (57) Abstract
- (71) Name(s) of applicant(s)
- (72) Name(s) of Inventor(s)

GENERAL NOTICES

1.0 Patent Applications published under Section 42 and Regulation 35.

1.1 National Application

(21) Application no.: KE/P/2021/3884 (22) Filing Date: 04/08/2021

(51) Int.Cl.2016.01 A 42B 3/00

(54) Title: Bicycle Helmet Structure

(72) Inventors: Shah Shanil Bijesh, P. O. BOX 10105-00100, NAIROBI, Kenya

(73) Applicant(s): Shah Shanil Bijesh, P. O. BOX 10105-00100, NAIROBI, Kenya

(74) Agent: FREDRICK O. OTSWONG'O, FRED OTSWONG'O & IP ASSOCIATES, P. O. BOX 54708-00200, NAIROBI, KENYA

(57)

The present invention discloses a novel bicycle helmet structure as a piece of personal protective equipment for bicyclists. The said helmet is designed to protect the head and face of an individual and offers head protection and shock absorption in order to reduce the chances of a concussion or head injury. The invention is meant to be placed around the head of the user and held in place using tightening buckles [J], [2], and webbing [4]. The said structure includes an exterior shell [5], a foam body [7] composed of a specific foam and straps [3]. Attached to the outer shell of the helmet are the hinge mechanisms [6] and when a downwards force is applied to the top of the hinge, it lowers and by doing so moves interior joints [J8] apart thus applying tension on to the fiber [17] which turns the kinetic energy into elastic potential energy.

(21) Application no.: KE/P/2021/3905 (22) Filing Date: 13/09/2021

(51) Int.Cl.2016.01 C 02F 1/00

(54) Title: DIATOMACEOUS WASTE PORTABLE WATER FILTER

(72) Inventors: SIMIYU MARY TAABU, P. O. BOX 50199-00100 NAIROBI, Kenya

(73) Applicant(s): SIMIYU MARY TAABU, P. O. BOX 50199-00100 NAIROBI, Kenya

(74) Agent: None

(57) The diatomaceous earth waste ceramic water filter is housed in a calabash or a ceramic or a plastic cylinder or any locally available material. The diatomaceous earth waste has not been used in producing ceramic water filters even though they are made up of 90.0% diatomaceous earth which is an excellent material in water filtration. Diatomaceous earth waste is capable of removing more than 99.9% micro-organisms and 98.8% virus. Furthermore, diatomaceous earth waste filter has disinfection abilities to decontaminate itself due to diatom like spears and does not require the silver nanoparticles. The brittle nature of ceramics has been addressed in the filter using an organic binder from *Corchorus olitoris*, locally known as "Mrenda" with the ratio of powder to binder being 3: 1. The filter uses the force of gravity to facilitate filtration processes aided by a straw to access the safe water which further increases the pressure gradient.

(21) Application no.: KE/P/2022/3976 (22) Filing Date: 04/01/2022

(51) Int.Cl.2016.01 G 06F 9/00

(54) Title: Convergence System Application.

(72) Inventors: GIDEON MAGAK OMODHO, P. O. BOX 76658-00508 NAIROBI, Kenya

(73) Applicant(s): GIDEON MAGAK OMODHO, P. O. BOX 76658-00508 NAIROBI, Kenya

(74) Agent: Richard Gowi, P. O. Box 322, Ngong Hills, Kenya

(57)

The Convergence System Application is system and method for Convergence of many applications on a mobile device such as a smartphone, a tablet computer or laptop is revealed where at least a single window application converges all vendors' applications including competing vendors' applications on one portal. Embodiments therefore provide architecture design capable of linking all apps and sharing the connected applications on an Android (as well as other operating system) mobile device such as a smartphone, tablets, desktop computer, laptops on a single portal. The applications architecture creates a structure that allows third- party applications to obtain results and leverage already built third party application components, as well as exchanges of information among multiple third-party applications, reducing the complexity of newly developed functionalities for applications architecture on not just one, but multiple devices. Revealed here is a singular but multi-application invention with a bidirectional contextual based inter application communication, providing the value of operating and receiving services

without application boundaries rather service oriented approach becomes the value add, in addition transacting from a singular transacting window without operating external apps on a session.

(21) Application no.: KE/P/2022/3982 (22) Filing Date: 18/01/2022

(51) Int.Cl.2016.01 A 61M 5/178

(54) Title: SYRINGE WITH EXTENSION DEVICE

(72) Inventors: STEPHEN OTIENO GWER; APARNA RAMANATHAN; ERIN KOKSAL; FREDRICK ODHIAMBO OTIENO and KARL HEINZ TONDO

(73) Applicant(s): STEPHEN OTIENO GWER, NYANZA REPRODUCTIVE HEALTH SOCIETY (NRHS) UNIM Research and Training Centre, Lumumba Sub County Hospital Complex, P. O. BOX 3428-40100 KISUMU, Kenya and UNIM Research and Training Centre, Lumumba Sub County Hospital Complex, P. O. BOX 1764-40100 KISUMU, Kenya

(74) Agent: FREDRICK O. OTSWONG'O, FRED OTSWONG'O &IP ASSOCIATES, P. O. BOX 54708-00200, NAIROBI, KENYA

(57) The present invention discloses a syringe and device for extending a syringe that is designed to extend the length of a syringe. The syringe comprises a device that has three parts that are fitted together, namely; the plunger holder, the syringe holder, and a screw that locks the two together. The device has a single component piece made from plastic or metal that attaches to the syringe body and the syringe plunger to extend syringe length such that administration of a paracervical block is possible using a standard-length needle. The said device is attached to a syringe to provide the additional length required to complete certain medical procedures, for example, the application of medication to a woman's cervix. Also disclosed is a method of assembling a syringe with a device for extending the syringe consisting of a variety of steps.

(51) Int.Cl.2016.01 C 08L 71/00, C 08L 23/00

(54) Title: POLYPROPYLENE WASTE FITTINGS FOR PVC PIPE AND POLYPROPYLENE PIPES

(72) Inventors: RONAK PARIKH, P. O. BOX 18833-00500 NAIROBI, Kenya

(73) Applicant(s): KRONA PLASTICS LIMITED, P. O. BOX 18833-00500 NAIROBI, Kenya

(74) Agent: None

(57) The invention relates to a regenerated polypropylene waste fittings and a preparation method thereof. The invention solves the problem of high production cost since the existing special materials for polypropylene waste fittings are prepared from new materials and that the process comprises of the following steps:- Mixing a specific grade of Polypropylene, Cacao3 PP grade, Additives like UV Stabilizers, TiO2 and Master batches in a mixing machine for a specific period to make them homogenous, then mixed material is being poured into the hopper of high speed injection mould machine. The material inside the mould is being cooled by chilled water for a period of 20 seconds to 120 seconds and then after completion of cycle time the final waste fittings are ready to pack and that the final product takes its shapes as per the mould designs.

(21) Application no.: KE/P/2022/4289 (22) Filing Date: 14/06/2022

(51) Int.Cl.

(54) Title: AN MPESA WATER SERVICE STATION, WHICH DOES PURIFICATION AND DISPENSING

(72) Inventors: QIU FAN, P. O. BOX 103104-00600 NAIROBI, China

(73) Applicant(s): QIU FAN, P. O. BOX 103104-00600 NAIROBI, China

(74) Agent: None

(57)

The invention relates to an Mpesa Water Service Station, which does purification and dispensing comprising of a filter elements with high quality for pre-treatment, RO/UF, or post treatment to thoroughly remove silt, rust, suspended solids and impurities among other dirt; a water inlet for obtaining water from a supply source and a water purification system with filters for removing impurities from the source water to produce purified water capable of dispensing water by use of mobile money and A TM card and that the said system is capable of dispensing other liquids like milk, oils etc, when the said liquids are put on the storage tank and then disengage the purification system to allow only usage of Mpesa/card system to dispense the liquid as per instructions.

(57): Disclosed is a video encoding method using transformation units of a variable tree structure,
comprising: transforming a current region on the basis of the transformation units of a variable tree
structure, which is generated on the basis of the maximum division level of transformation units among
transformation units divided hierarchically from an elementary transformation unit with respect to the
current region, in order to encode the current region of a video; and transmitting transformation unit layer
structure information, which includes information on the encoding data and encoding mode of the current
region, and information on the maximum size of transformation units for the video and information on
minimum size thereof.

 (54) Title: SYNTHESIS OF ANTIMALARIAL HYBRID COMPOSITION COMPRISING OF SARCOSINE AND ANILINE PHARMACOPHORES AS SCAFFOLDS
 (51) Int.Cl.2016.01: A 61K 39/002, A 61P 33/02
 (57) Abstract: Synthesis of antimalarial hybrid composition comprising of sarcosine and aniline pharmacophores as scaffolds for management of plasmodial infections is disclosed. The said antiplasmodial hybrid drug further comprises sarcosine and aniline derivative. The said hybrid is synthesized by coupling sarcosine and 3-Chloro-4-(4-chlorophenoxy) aniline pharmacophores. These pharmacophores are selected based on in silico studies that show that these molecules can bind protein ligands of plasmodium parasites. The invention further provides a method of synthesizing hybrid drug comprising adding thionyl chloride to sarcosine in order to form acyl chloride, and adding the resultant mixture to aniline to form sarcosine-aniline hybrid molecule. The IC_{50} of sarcosine-aniline hybrid is 44.80 ± 4.70 ng/ml compared to that of aniline derivative which is 22.86 ± 1.26 ng/ml. The IC_{50} of control drugs were 2.63 ± 0.38 ng/ml, 5.69 ± 0.39 ng/ml for artesunate and chloroquine respectively. Cytotoxicity results revealed that sarcosine-aniline hybrid is safe and non-toxic.

(54) Title: PROCESS FOR RECYCLING COBALT-BEARING MATERIALS

(51) Int.Cl.2016.01: C 22B 7/00, C 22B 23/02

(57) Abstract: The present invention concerns the recovery of cobalt from cobalt-bearing materials, in particular from cobalt-bearing lithium-ion secondary batteries, from the spent batteries, or from their scrap. A process is divulged for the recovery of cobalt from cobalt-bearing materials, comprising the steps of: providing a converter furnace, charging slag formers and one or more of copper matte, copper-nickel

matte, and impure alloy into the furnace, and injecting an oxidizing gas so as to smelt the charge in oxidizing conditions, thereby obtaining a molten bath comprising a crude metal phase, and a cobalt-bearing slag, and separating the crude metal from the cobalt-bearing slag, characterized in that the cobalt-bearing materials are charged into the furnace. This process is particularly suitable for recycling cobalt-bearing lithium-ion secondary batteries. Cobalt is concentrated in a limited amount of converter slag, from which it can economically be retrieved, together with other elements such as copper and/or nickel.

(51) Int.Cl.2016.01: H 04W 4/12, H 04W 8/22, H 04W 4/24, H 04W 4/16

(57) Abstract: A system, smart device and method for apportioning costs of smart device operations between purposes. Operation information concerning operations performed by the smart device is recorded. The operations are apportioned between purposes based on categorization information and the operation information. The cost of the apportioned operations performed by the device is determined for the purposes based on the operation information and tariff information.

(54) Title: HOLDER FOR SECURING A FLUID TUBE, A SOLAR COLLECTOR, AND METHOD OF ARRANGING A FLUID TUBE

(51) Int.Cl.2016.01: F 24S 20/20, F 24S 25/60, F 24S 25/00, F 24S 23/74

(57) Abstract: A holder (300) for securing a fluid tube to a trough-formed solar collector. In an operation mode of the solar collector, the holder (300) partly encircles a circumference of a cross-section of the fluid tube and leaves a portion of the circumference un-encircled by the holder (300). The holder (300) may comprise a base member (302) adapted to abut the fluid tube, the base member (302) comprising at least one securing means (312) adapted to secure the base member (302) to the solar collector. Further, the holder (300) may comprise an immobilising member (304) adapted to together with the base member (302) immobilise a centre-line of the fluid tube in the solar collector when the fluid tube abuts the holder (300). The base member (302) is connected with the immobilising member (304), such that the base member (302) together with the immobilising member (304), in an operation mode of the solar collector, partly encircles the circumference of the cross-section of the fluid tube and forms an opening smaller than a diameter of the cross-section of the fluid tube. The immobilising member (304) may be pivotably connected to the base member by a connecting means (310), such that the immobilising member (304) can pivot in relation to the base member (302) to, in a service mode of the solar collector, leave an opening larger than the diameter of the cross-section of the fluid tube.

(51) Int.Cl.: C 07K 14/55, A 61K 39/21, A 61K 47/10, A 61P 31/18, A 61P 31/14

(57) Abstract: A potent HIV inhibiting lipopeptide, a derivative thereof, a pharmaceutical composition thereof and use thereof. The lipopeptide is as follows: a) the lipopeptide is formed by connecting a polypeptide having antiviral activity to a lipophilic compound which is linked to a carboxy-terminal of the polypeptide, or b) the lipopeptide is formed by connecting a polypeptide having antiviral activity to a terminal protecting group and a lipophilic compound which is linked to a carboxy-terminal of the polypeptide, wherein the terminal protecting group is an amino terminal protecting group and/or a carboxy-terminal protecting group; the polypeptide sequence consists of 28 amino acid residues, corresponding to the 127th-154th amino acids in the HIV-1 strain HXB2 gp41 sequence. Compared with T-20, the anti-HIV activity of the lipopeptide is several thousands times or even tens of thousands times higher, and is also significantly higher than that of anti-HIV lipopeptides C34-Chol, LP-19, and the like.

 (54) Title: A METHOD AND APPARATUS FOR MAGNETIC/ELECTROSTATIC/ELECTROMAGNETIC TREATMENT OF FLUIDS COMPRISING THREE PHASES: THE TREATMENT PHASE, THE MIXING PHASE, AND THE USAGE PHASE WHICH ARE SPATIALLY AND TEMPORALLY DECOUPLED
 (51) Int.Cl.2016.01: B 01J 19/08, C 02F 1/48, C 10G 32/02
 (57) Abstract: A method for magnetic/electrostatic/electromagnetic treatment of fluids consisting of three separate phases that are spatially and temporally decoupled, wherein in the first phase, a magnetic/electrostatic/electromagnetic field is applied to a working fluid under circulation to obtain the directly ionized fluid. This directly ionized fluid resulting from the first phase might be immediately used or subjected to storage before being used in the second phase. In the second phase, the directly ionized fluid is used as an ionizer or an ionizing agent for ionizing indirectly the normal non-ionized fluid by mixing the directly ionized fluid and normal non-ionized fluid in accordance with a predetermined mixing ratio and mixing method between the directly ionized fluid and normal non-ionized fluid. In the third phase, the resultant mixed or indirectly-ionized fluid is used in the proper application directly or stored in a storage tank for later use. According to the embodiments of the invention, the three phases of the proposed method are decoupled from each other completely in space and time without the need of the treatment plants to be in the same location of the mixing plants (spatial decoupling), and without the need for simultaneous production of the treated and the mixed fluids (temporal decoupling). Possible applications for the invention include, but not limited to, all previous applications of the direct and immediate magnetic/electrostatic/electromagnetic treatment of fluids such as water treatment, hydrocarbon fuel treatment.

 (51) Int.Cl.2016.01: H 01L 31/02, H 02J 3/38, H 02J 7/35, H 02S 40/32
 (57) Abstract: A solar cell management system for increasing the efficiency and power output of a solar cell and methods for making and using the same. The management system provides an electric field across one or more solar cells. The imposed electric field exerts a force on both the electrons and holes created by light incident on the solar cell and accelerates the electron-hole pairs towards the electrodes of the solar cell. The solar cell management system considers variations in configuration of solar cells to maximize the power output of the solar cells. The accelerated electron-hole pairs have a lower likelihood of recombining within the cells' semiconductor's material. This reduction in the electron-hole recombination rate results in an overall increase in the solar cells' efficiency and greater power output.

(54) Title: CONFIGURATION FOR LTE IN UNLICENSED SPECTRUM

(51) Int.Cl.: H 04L 5/00, H 04W 72/00, H 04W 16/00

(57) Abstract: In the application of TDD and eIMTA to LTE in the unlicensed spectrum, various alterations may be needed to compensate for interference from and the behavior of RATs operating in this range of frequencies. Various UE and base station methods are presented, including modified TDD configurations and UE behaviors to advance operations on unlicensed spectrum. A method, an apparatus, and a computer-readable medium for wireless communication are provided whereby configuration information is conveyed to a UE for communicating on a carrier in the unlicensed spectrum. The configuration information indicates a subframe allocation for at least one frame on the unlicensed carrier. Other aspects are directed to the detection of the transmission, communication of new and modified eIMTA configuration transmissions, and mechanism and behaviors which address unreceived configuration information.

(54) Title: USE OF CERTAIN ACTIVE INGREDIENT COMBINATIONS IN TUBEROUS ROOT CROP PLANTS
(51) Int.Cl.2016.01: A 01N 25/32, A 01N 41/06, A 01N 43/80, A 01N 47/36, A 01N 47/38, A 01P 13/00
(57) Abstract: The present invention primarily relates to the use of combinations based on the active ingredients (i) foramsulfuron and/or salts thereof, (ii) iodosulfuron-methyl and/or salts thereof, optionally (iii) thien carbazon- methyl and/or salts thereof, and (iv) one or more safeners, or of compositions comprising said combinations of active ingredients (i), (ii), optionally (iii), and (iv) for controlling harmful plants in tuberous root crop plants, preferably in cassava. The present invention also relates to the use of said combinations of active ingredients (i), (ii), optionally (iii), and (iv) or of compositions comprising said combinations of active ingredients (i), (ii), optionally (iii), and (iv) as plant growth regulators for tuberous root crop plants, preferably as plant growth regulators for cassava. Furthermore, the present invention relates to a corresponding method of controlling harmful plants in tuberous root crop plants and to a corresponding method of regulating plant growth of tuberous root crop plants.

(54) Title: METHOD AND DEVICE FOR CULTIVATING A CROP

(51) Int.Cl.2016.01: A 01G 9/24, A 01G 7/04

(57) Abstract: In a method and device for cultivating a crop cultivation takes place in an at least substantially daylight- free, climate-conditioned cultivation space (10). The cultivation space extends between a first side (1) and an opposite second side (2), wherein the crop is exposed to photosynthetically active radiation from an array of spatially separated artificial light sources (60). An airflow (35) is guided over the crop from the first side to the second side. The artificial light sources are spatially distributed over the crop. Downstream light sources (60QR) of the array of light sources produce a higher dosage of photosynthetically active radiation than light sources (60AB) located further upstream as seen in the flow direction of the airflow (35) guided over the crop.

(51) 2016.01: B 62D 65/18

(57) The 400 Series Flatbed (400SF) Four-wheeled Vehicle for Driving Agro-machinery contains a power transmission system that is used to drive the vehicle and agro-machinery. The transmission system has machine elements including shafts, bearings, flange coupling, universal joints, chain, and sprockets. The transmission will have two flange couplings, four universal joints, two chains, four sprockets, four bearings, and two retractable shafts. The output shaft of the two-stroke engine shall be coupled to the two transmission mechanisms. This will provide safety and ease of operation.

(54) A SYSTEM FOR EXECUTING OF AUTOMATIC AIRTIME RECHARGE

(51) 2016.01: G 06Q 90/00

(57)

The present invention relates to devices and systems for automatic Airtime recharge system that is capable of automatically topping up airtime whenever an Airtime threshold is reached, the airtime automatic top up system including: an airtime monitoring section that is configured to monitor airtime levels; and a airtime purchase section that automatically purchases airtime for a recipient phone(s) whenever the airtime level threshold is reached. It refers to smart devices such as computers and tablets that are installed with software applications that are integrated with financial institutions' core systems. It relates to a computer implemented system that executes automatic top up of Airtime and the said system being integrated with the a smart device for initiation of system and the smart device can access an SIM network having a mobile wallet and for access to a bank account held at a financial institution.

(54) STANDARD CAR ALARM SYSTEM PACKAGE

(51)

(57) This invention discloses a standard car alarm system, comprising sensors, car alarm system and a SIM CARD. The invention further discloses a standard car alarm system, characterized in that a sensor is installed in car or vehicle, such that door open, an impact or any movement inside the car or vehicle activates the sensor, which in turn, triggers the car alarm system and sounds the alarm. This invention enables the car alarm, through the SIM CARD to trigger the system when an intruder enters the car and creates a sound or triggers a siren, and the car alarm system calls the owner of the car and the owner can speak to and hear the intruders. The alarm system also comes with a microphone and a speaker that enables the car owner to talk to intruders.

(54) Title: A SYSTEM FOR REMOTE EXECUTING OF PAYMENT AT POINT OF SALE

(57) The present invention relates to a payment system that allows remote payment from a common account at point of sale. It refers to smart devices such as computers and tablets that are installed with software applications that are integrated with financial institutions' core systems. In particular it related to a computer implemented system for executing remote payments comprising of a computer-based system for installing a software, the said system being integrated with the point-of-sale hardware of a merchant; a smart device for initiation of system; wherein the smart device can access an SIM network having a mobile wallet and /or access to a bank account held at a financial institution

(54) Title: FISH SCALE GARMENT HANGING DECORATIONS

(57)

The invention provides a production method of a fish scale garment hanging decoration. The production method aims to solve the problems that existing garment hanging decorations made of plastic artificial fish scale garment hanging decorations which contain inferior colloids and harmful tinting pigments to cause a series of adverse factors of poor surface evenness, low adhesive forces, large pollution discharge capacity, and high possibility of environment pollution caused by harmful gas released by inferior colloids. A garment hanging decoration made of real fish scales instead of artificial fish scales has the advantages that the smoothness, glossiness, plumpness and adhesive force of the fish scale garment hanging decoration are remarkably improved; as environment-friendly raw materials are blended into pure natural binding agents and pigments, the fish scale garment hanging decoration simultaneously has decorative, attractive, quality and collection values as well as a practical value and provides powerful support to the upgrading of garment hanging decorations.

(54) Article to which design is applied: A FOOT-OPERATED VALVE ASSEMBLY

(73) Owner: INNOV ASEPSIS LIMITED Upper Kololo Terrace, P. O. Box 29464, Kampala, Uganda

(74) Agent/ Address for service:

The invention relates to a foot-operated valve assembly 10 which includes a valve 12 which is operatively biased to a closed position, in which water flow 5 is inhibited, by a biasing member in the form of a valve spring 17 which is connected between a lever 14 of the valve and a wall-mounted casing 18 within which the valve and biasing member are housed. The valve assembly 10 further includes a remotely situated foot-operated actuator including a planar pedal 22 pivotally connected to a pedal housing 24 which is operatively 10 secured to the ground or floor. A cable linkage 21 connects the pedal to the lever of the valve 12 such that when the pedal is depressed, the valve is displaced from its closed position to an open position in which water flow is permitted. The components of the valve assembly are simple, easy to manufacture, easy to install and inexpensive.

(54) Article to which design is applied: SOLAR HOME SYSTEM FOR ALL HOUSEHOLD SERVICES

(73) Owner: FILLIT Marielle Damara 11520 NE 22nd Dr, North Miami, FL, United States of America

(74) Agent/ Address for service:

The disclosure describes a solar home system that may be used for the following purposes in the household: lighting, mobile phone and other electronic device charging through Universal Serial Bus (USB) ports, receiving television signal through digital TV signal, receiving internet information through the wireless network signal and powering electronics through an inverter. The present invention is very beneficial for households who do not have access to electricity from the electricity grid, households that have unreliable access to electricity, or households that choose not to utilize electricity directly from the grid.

(54) Article to which design is applied: COLD ACCUMULATING DEVICE

(73) Owner: ZAKRYTOE AKTSIONERNOE OBSHESTVO "ATLANT" (BY) 61, Pobeditelei Avenue, BY - 220035, Minsk, Belgium

(74) Agent/ Address for service: CronjÄ© & Co., 1 Charles Cathral Street, Olympia Windhoek, Namibia

The utility model relates to refrigerating appliances, to cold accumulating devices. The claimed cold accumulating device is intended for long-term maintenance of low temperatures inside the refrigerating equipment and creating the favourable conditions for storing the foodstuff or medical products. The cold accumulating device comprises the compressor, the condenser, the tubular evaporator, in which the

refrigerating agent circulates, and the chamber with the cold accumulating material; according to the proposed technical solution, the chamber is made in the form of individual sections. They are arranged over one another. The section comprises the cold accumulating material. The tubular evaporator is installed with the possibility of enveloping the internal contour of each section. In the claimed device, the sealed bags are used. The cold accumulating material is contained in sealed bags, which are placed in pairs in each section of the chamber. The tubular evaporator is located between the bags. The claimed utility model makes it possible to reduce the labour intensity of the manufacture, reduces the specific weight of the total design and improves the energy efficiency. The cold accumulating device is used in refrigerating plants operated under the conditions of absence of the electric power, for example, where the power supply from the solar battery is used or power failures occur. The device is also applicable in case of considerable temperature differences depending on the time of day.

8.0 Industrial Design Applications Published Under Section 87 and Regulation 48

NOTICE is given that any person who has grounds of opposition to the Registration of any of the Industrial designs published herein may within sixty (60) days from the date of this Journal, lodge a notice of opposition on form IP 36 (in duplicate) together with a fee of Ksh.5,000/= (local opponent) or US\$ 250 (foreign opponent).

The period of lodging the notice of opposition may be extended by the Managing Director as he deems fit and upon such terms as he may direct. Any request for such extension should be made to the Managing Director to reach him before the expiry of the period allowed.

Formal opposition should not be lodged until after reasonable notice has been given in writing to the applicant to afford him an opportunity of withdrawing his application before the expense of preparing the notice of opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant. Representations and samples of the designs advertised herein can be seen at the Patent Registry, Kenya Industrial Property Institute, KIPi Centre, 17 Kabarsiran Avenue, Off Waiyaki Way, Lavington, Nairobi.

10.0 Renewed Industrial Designs

10.1 National Designs

11.0 Trade Marks

11.1 Applications accepted for registration

NOTICE is given that any person who has grounds of opposition to the Registration of any of the trade marks advertised herein according to these classes may within sixty (60) days from the date of this Journal, lodge a notice of opposition on form TM. No. 6 (in duplicate) together with a fee of Ksh.5,000/= (local opponent) or US\$ 250 (foreign opponent). The period of lodging the notice of opposition may be extended by the Registrar as he deems fit and upon such terms as he may direct. Any request for such extension should be made to the Registrar to reach him before the expiry of the period allowed.

Formal opposition should not be lodged until after a reasonable notice has been given in writing to the applicant for registration to afford him any opportunity of withdrawing his application before the expense of preparing the notice of opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant.

Representations of the marks advertised herein can be seen at the Trade Marks Registry, Kenya Industrial Property Institute, KIPi Centre, Kabarsiran Avenue Off Waiyaki Way, Lavington, Nairobi.

(300): None (511): 9(Computer hardware; aircraft cockpit voice recorders and flight data recorders; flight parameter data recorders and transmitters; semiconductors; radiofrequency switches; radar detectors; flight testers, namely, computer hardware and software for performing flight simulation; computer software for aircraft flight simulation; telephonic transmitter; telecommunication network hubs; telecommunication network connectors; telecommunication network receivers; telephonic network interface hardware; telephonic security control hardware; telephonic multimedia control hardware; telephonic switching, routing, and subscriber interface hardware or use in computer and communications networks and systems; computer software for use in command and control in the field of satellite communications; computer software for data mining in the field of strategic and tactical intelligence; computer telemetry software for use in data collection and transmission from satellites, aircraft, missiles, moving surface-based systems and remotely configured fixed site installations; computer software for use in data collection and transmission in medical in x-ray machines, magnetic sensing machines, acoustic sensing machines, chemical tracing machines; computer software for use in control and operation of real-time equipment; computer software for operating and controlling x-ray machines; computer software for operating and controlling magnetic sensing machines; computer software for operating and controlling medical imaging machines; computer software for operating and controlling acoustic sensing machines; computer software for operating and controlling chemical tracing machines; flight navigation controls; flight safety equipment, namely, voice recorders and telemetry systems for use on aircraft; computer software for pe rating and controlling aircraft maintenance systems on aircraft; computer software for operating and controlling telemetry scanners; intrusion detection systems; computer software for operating and controlling combat scoring systems and pictures, computer software for operating and controlling air traffic handling systems; computer software for operating and controlling monitors, still cameras and video camer?s; computer software for operating and controlling radar systems; computer software for use in vehicle status and monitoring systems; computer software for system situational awareness and representation in communication and data link control system; telecommunications channel amplifiers; frequency filters for use in telecommunications; computer hardware for electronic key information processing, namely, the processing of information related to electronic encryption and other security technologies; radiofrequency filters; harmonic generators; satellite transponders; transponder controllers; secure communications s stems consisting of di ital processors, modulators, antennas, transmitters, receivers, and encryption hardware and software for secure algorithm processing devices for use with airborne, satellite, ground, and sea-based information collection, transmission and analysis; communications systems consisting of high data rate microwave communications links and computer hardware; communications systems consisting of telephonic and high data rate microwave radio components, digital processors, computer hardware, software containing algorithms for use in processing secure communications and software for the secure broadcast and/or receipt of communications and information or data; on-board satellite equipment providing subsystem capabilities, namely, electronic modules and circuit cards for digital solid-state recording of electronic data, video signal processing, communications signal processing and translation; microwave devices, equipment, products and components, namely, frequency transmitters, frequency converters, frequency synthesizers, frequency modulators, frequency filters, frequency power amplifiers, passive components, mechanical

L3 HARRIS

switches, wireless frequency monitors; radio navigation equipment comprised of recording transmission and receiving microwave equipment, namely, microprocessors, electronic displays, digital storage devices, radio transmitters and receivers, providing the following capabilities; navigation, vehicle command and control, vehicle indications and warning, data and telemetry recording; surveillance equipment and devices, namely, ISR (Intelligence surveillance reconnaissance) subsystems which use computer hardware and software to provide a sampling of the electromagnetic spectrum in prescribed frequencies to extract information content available for analysis, for use in military and civilian aircraft; electronic sensors that provide in real-time the ability to collect electronic data and information; electronic computer hardware and software that allow for the collection, monitoring, analysis, storage, and presentation of medical images; hardware that allows for the interfacing of analog or digital signals into the existing PSTN (Public Switch Telephone Network) or global Information network and create the ability to take those same signals into a mobile communications system; telephonic computer hardware that allows for the creation of wireless last mile, namely, wireless radio connections between a central source and destination with the telephony and data system having fixed site or mobile operational capability; communications terminals which consist of computer hardware that provides for the creation and connection of multimedia communication signals including analog, voice, data, and video and allow signals to be connected to other communications terminals or other network nodes; Radio and television transmission systems comprising transmitters, monitors, signal mixers, audio and video signal encoders and decoders and editing equipment, namely, signal processors; transmitters and receivers for satellite communications; computer-operated network systems comprising computer hardware and software for transmitting data between computers connected in a network and for managing the computers and the transmission of the data on said network; computer information systems comprising computers and software for processing data, word processing and displaying of data; avionics systems comprising digital maps, fiber-optic and wire data busses, memory devices, instrumentation for displaying, storing, processing, and retrieving weather, tactical, strategic and secure data, aircraft cockpit controls and data displays; phased array antennas; global positioning equipment comprising data processors and displays; Computer software and computer hardware for use in air traffic control communications systems for displaying transporting, transmitting voice, data and images, controlling, switching, routing, and receiving air traffic information; computers and computer software for converting images into data, and for analyzing, displaying and printing the data in the field of two and three-dimensional image extraction, manipulation, display, and geographic registration; secure computer-operated systems consisting of computer hardware and computer software, and encrypted databases, all used for ensuring and controlling the security and access of a computer network and the information contained therein namely, tracking air traffic and transmitting encrypted messages to pilots database management, file transfer, and for connecting computers and databases in a network and for air traffic circulation management; airline management system comprising computers and software for database management and for exchanging aircraft and aircraft operations information; Television signal analysis processors, namely, electronic display panels for displaying signals, signal evaluation terminals primarily comprised of customized signal analysis hardware with integrated displays and software analysis components running on industry-standard computers and monitors for evaluating the quality of analog and digital signals, media analysis servers for

verifying the quality of digital media content, signal interface modules, handheld signal analyzers, optical signal analyzers, circuit testers for monitoring broadcast signals, and video monitoring tools, namely, software-based video monitoring tools, namely, computer software for monitoring and logging the loudness of media content; timing reference generators, namely, time reference signal generators for broadcast system timing signal and test signal generation; hardware and computer software for television production, post-production and broadcast, namely, demodulators, digital signage, namely, dynamic electronic displays and networking computer servers and computer software for managing and controlling dynamic electronic displays, distribution amplifiers, audio/video editors, namely, computer workstations equipped with computer software for editing audio and video program material, computer hardware and computer software sold as a unit for generating characters and graphics, computer software for generating visual effects, computer hardware and computer software sold as a unit for generating and inserting on-air branding, emergency alert modules, namely, computerized electronic modules and associated computer software for implementing the broadcasting of public emergency alert messages, fiber optic signal transports, electronic master control switchers for audio and video signals, audio and video signal compressors and audio and video signal decompressors, multiplexers and de-multiplexers, multiviewers, broadcast computer network monitoring and control application software, electronic network control panels, audio, video and data receivers and decoders, electronic routing switchers for audio and video signals, video servers, NTP (Network Time Protocol) timing modules comprised primarily of computer hardware and computer software for carrying out NTP timing, signal timing clocks, signal transport modules, audio/video sync and timing managers primarily comprised of high precision clock generation circuitry for synchronization of audio with video, computer software for creating and displaying timecode markers, up/down signal frequency converters, signal format cross converters, all for use in the media and entertainment industry; broadcast operations software for advertising, sales, traffic and billing, automation, digital asset management, programming and rights management, namely, computer software for managing, monitoring and automating the buying, selling, scheduling, research, inventory management, production tracking and accounting processes for advertising, and general content for the media and entertainment industry; computer software for controlling and monitoring switching systems for television and radio signals; computer software for managing, monitoring and automating the creation, movement, location, archiving, retrieval and use of digital media assets; business process management and messaging software, for managing and controlling human and automated workflows and multisystem communications for use in the media and entertainment industry; network management centers primarily comprised of mobile and portable radios and also containing electrical base station controllers, electrical communication controllers and electrical network controllers; mobile two-way communications radios; and non-mobile two-way communications radios; portable two-way communications radios; radio network gateways comprising computers, computer switches and associated computer software for voice and data communications; Internet protocol-based networks comprising computer hardware and computer software for interoperable communications; telecommunications equipment, namely, trunked radio communication systems for public service and industrial applications comprised of portable communications radios, electrical base station controllers, electrical communication controllers and circuit switches; control equipment for two-way

mobile and two-way fixed radios, namely, base station equipment for fixed and mobile networking and communications, cell sites primarily comprised of electronic hardware, computer software, antennae, and base stations, control stations primarily comprised of, radio hardware and associated computer software, desktop control stations primarily comprised of radios, radio hardware and associated computer software, dispatch and console hardware, namely, dispatch consoles and software for carrying out emergency and non emergency communications and carrying out command and control of public safety personnel and assets, site management computer hardware and software for managing communications radios and base stations, and network monitoring computer hardware and software for monitoring communications radios and base stations; radio data communications systems primarily comprised of mobile communications radios and also containing non-mobile communications radios, portable communications radios, base station controllers, communication controllers, and network controllers; communications radio network gateways comprised primarily of computers, computer switches and associated computer software for providing a gateway between networks; space deployable reflectors for satellite communications; computers and computer software for processing geographic elevation data representing the elevations of locations on the earth to generate, display and print three-dimensional geographically registered representations of those locations; computers and computer software for managing, cataloging and retrieving geospatial imagery, imagery derived products and other intelligence products through the synchronization of data catalogs across disparate storage locations; computers and computer software for managing, processing, exploiting and disseminating motion imagery intelligence; computers and computer software for managing, processing, exploiting and disseminating flight planning presentations to general aviation pilots and air traffic controllers; networking communications radios; shipboard communication terminals primarily comprised of antennae, pedestals, positioners, modems, up converters, down converters, amplifiers and user interfaces; ground communication terminals primarily comprised of antennae, pedestals, positioners, modems, up converters, down converters, amplifiers and user interfaces; computer information systems comprised mainly of computers and computer software for processing data, word processing and displaying of data in the fields of census information systems, healthcare information systems, intelligent electrical power distribution systems, weather reporting and forecasting systems, and environmental reporting and forecasting systems; avionics equipment, namely, video signal compressor and decompressors, power supplies, mounting racks specially adapted for mounting and interconnecting electronic apparatus, airborne signal processors for network interoperability and for targeting, of weapons secure network switches, computer software in the nature of networking protocols for facilitating the exchange of electronic messages and data, radio frequency (RF) data links for weapons, UHF/NHF wireless data links, beam former electronics primarily consisting of power amplifiers and also containing low noise amplifiers, phase shifters, time delay units, transmit and receive switches, array dividers, array combiners, frequency up-converters, frequency down-converters, array controllers and array power supplies and control equipment, antenna control units, attitude and heading reference units, transmit/receive control units, antenna position controllers and frequency band select switches; air traffic control communications systems consisting of computer hardware and computer software for displaying, transmitting, controlling, switching, routing, and receiving weather data; two-way radios for communication of voice, data, images and video for use by military

and other government agencies; two-way communications radios, namely, voice and data communications radios operable across multiple frequency bands for enabling public safety officials and first responders such as law enforcement agencies, paramedics, firefighters and military personnel to communicate interoperable with one another even though their respective pre-existing communications infrastructures might otherwise be mutually incompatible; trunked radio communication systems for public service and industrial applications, namely, cellular base stations and mobile radio base stations for two-way mobile and fixed communications radios; loudspeakers for mobile two-way communications radios; battery chargers for non-mobile two-way communications radios; Internet protocol-based communication networks comprised primarily of computer hardware and computer software for implementing interoperable communications; cryptographic modules namely, electronic modules with embedded firmware for data encryption; encryption engines; radio frequency wireless communications adapters, namely, network interface cards; software for operating radio frequency wireless network interface cards; communications software for connecting radio frequency wireless network interface cards to a local area communications network; radio network gateways comprised primarily of computers, computer switches, and computer software in the field of voice and data communications; computer software for use in the field of air traffic control, namely, for the supervision, maintenance, administration, troubleshooting and configuration of computer software for monitoring the performance of air traffic control systems, mapping definition, uploading software updates and releases, access control, user definition, recovery, and diagnostic reporting), 35(Business management advice and consultation in the field of telecommunications logistics; Business consultation and assistance in the operation of telecommunication systems and networks for others; Business consultation and assistance in the field of telecommunications namely, the operation and administration of telecommunication networks and communication links for others.), 37(Technical consultation in the field of building construction of fixed-site earth-based facilities; Technical consultation and assistance in the field of construction, repair and maintenance of submarines and ships; Technical consultation concerning the installation, repair and maintenance of mobile and fixed-site earth-based facilities, satellites, and related computer information systems; Technical consultation and assistance in the field of deployment of computer hardware equipment and systems; IT and communication infrastructure upgrade services, namely, updating of computer hardware for IT and communication systems; Telecommunications system maintenance services, namely, maintenance of radio, television and digital communications equipment for others), 38(Technical consultation in the field of satellite communications and communications by related communication information systems, namely, communications via satellite transmission, microwave products and telemetry and instrumentation; Consultation and technical assistance in the fields of secure communications and telemetry.), 42(Technical consultation and assistance in the field of avionics; Information technology consultation in the fields of submarines and ships, mobile and fixed-site earth-based facilities, satellites, and related information systems, namely, information security, communications microwave products and telemetry and instrumentation; Designing computer systems for software integration, maintenance and user-information services, operation support systems for software integration, maintenance and planning support services and provisioning, and provisioning control support services for satellite control networks, real-time defense

communications systems, and real time defense intelligence collection systems; Designing computer systems for engineering support for satellite launches, deployed communication systems and deployed intelligence collection systems; Consultation and technical assistance in the fields of customization of computer hardware and software products; Consultation and assistance with computer program management services, computer site management services, and deployment and management of wireless communications networks of others and communications link management services; Technical support services, namely, troubleshooting in the nature of diagnosing and testing computer hardware and software problems: Providing an interactive web site that enables users to enter, access, monitor and generate designed strategic and tactical signal intelligence information reports; IT and communication infrastructure migration services; technical design and deployment of telecommunication networks and computer networks for others; technical support services for migration of datacenter, server and database applications; data migration services; IT software applications management, enterprise services management, namely, management of software applications, management of restricting network, data, maintenance of computer software relating to computer security and prevention of computer risks; computer hardware and software consulting services; technical consulting in the field of telecommunications technology; technical consulting in the field of information technology (IT); updating and maintenance of computer software, information technology (IT) integration services; technical support, namely, monitoring of computer networks by remote access; remote computer network technical monitoring and software maintenance services; remote management of the information technology (IT) systems of others; planning, design and management of information technology (IT) systems; computer hardware and software design; computer network design for others; information assurance services for designing, deploying and operating secure communications systems and information networks, for safeguarding the confidentiality, integrity and availability of information systems and critical business data of others; design of radio, television and digital communications equipment for others; design and integration of telephone systems, communications systems, and information display systems) and 45(Consultation and technical assistance in the fields of information security and intelligence security services for secure and non-secure voice, data, and video communications, user authorization, recognition and message encryption.) (526): None (730): L3HARRIS TECHNOLOGIES, INC. of 1025 West NASA Boulevard, Melbourne, Florida 32919, United States of America (740): J. K. MUCHAE & COMPANY ADVOCATES of P.O. Box 60664 - 00200, Nairobi, Kenya

(300): None (511): 9(Computer hardware; aircraft cockpit voice recorders and flight data recorders; flight parameter data recorders and transmitters; semiconductors; radiofrequency switches; radar detectors; flight testers, namely, computer hardware and software for performing flight simulation; computer software for aircraft flight simulation; telephonic transmitter; telecommunication network hubs; telecommunication network connectors; telecommunication network receivers; telephonic network interface hardware; telephonic security control hardware; telephonic multimedia control hardware; telephonic switching, routing, and subscriber interface hardware or use in computer and communications networks and systems; computer software for use in command and control in the field of satellite communications; computer software for data mining in the field of strategic and tactical intelligence; computer telemetry software for use in data collection and transmission from satellites,

L3HARRIS

aircraft, missiles, moving surface-based systems and remotely configured fixed site installations; computer software for use in data collection and transmission in medical in x-ray machines, magnetic sensing machines, acoustic sensing machines, chemical tracing machines; computer software for use in control and operation of real-time equipment; computer software for operating and controlling x-ray machines; computer software for operating and controlling magnetic sensing machines; computer software for operating and controlling medical imaging machines; computer software for operating and controlling acoustic sensing machines; computer software for operating and controlling chemical tracing machines; flight navigation controls; flight safety equipment, namely, voice recorders and telemetry systems for use on aircraft; computer software for pe rating and controlling aircraft maintenance systems on aircraft; computer software for operating and controlling telemetry scanners; intrusion detection systems; computer software for operating and controlling combat scoring systems and pictures, computer software for operating and controlling air traffic handling systems; computer software for operating and controlling monitors, still cameras and video camer?s; computer software for operating and controlling radar systems; computer software for use in vehicle status and monitoring systems; computer software for system situational awareness and representation in communication and data link control system; telecommunications channel amplifiers; frequency filters for use in telecommunications; computer hardware for electronic key information processing, namely, the processing of information related to electronic encryption and other security technologies; radiofrequency filters; harmonic generators; satellite transponders; transponder controllers; secure communications s stems consisting of di ital processors, modulators, antennas, transmitters, receivers, and encryption hardware and software for secure algorithm processing devices for use with airborne, satellite, ground, and sea-based information collection, transmission and analysis; communications systems consisting of high data rate microwave communications links and computer hardware; communications systems consisting of telephonic and high data rate microwave radio components, digital processors, computer hardware, software containing algorithms for use in processing secure communications and software for the secure broadcast and/or receipt of communications and information or data; on-board satellite equipment providing subsystem capabilities, namely, electronic modules and circuit cards for digital solid- state recording of electronic data, video signal processing, communications signal processing and translation; microwave devices, equipment, products and components, namely, frequency transmitters, frequency converters, frequency synthesizers, frequency modulators, frequency filters, frequency power amplifiers, passive components, mechanical switches, wireless frequency monitors; radio navigation equipment comprised of recording transmission and receiving microwave equipment, namely, microprocessors, electronic displays, digital storage devices, radio transmitters and receivers, providing the following capabilities; navigation, vehicle command and control, vehicle indications and warning, data and telemetry recording; surveillance equipment and devices, namely, ISR (Intelligence surveillance reconnaissance) subsystems which use computer hardware and software to provide a sampling of the electromagnetic spectrum in prescribed frequencies to extract information content available for analysis, for use in military and civilian aircraft; electronic sensors that provide in real-time the ability to collect electronic data and information; electronic computer hardware and software that allow for the collection, monitoring, analysis, storage, and presentation of medical images; hardware that allows for the interfacing of analog or digital signals into the existing PSTN (Public

Switch Telephone Network) or global Information network and create the ability to take those same signals into a mobile communications system; telephonic computer hardware that allows for the creation of wireless last mile, namely, wireless radio connections between a central source and destination with the telephony and data system having fixed site or mobile operational capability; communications terminals which consist of computer hardware that provides for the creation and connection of multimedia communication signals including analog, voice, data, and video and allow signals to be connected to other communications terminals or other network nodes; Radio and television transmission systems comprising transmitters, monitors, signal mixers, audio and video signal encoders and decoders and editing equipment, namely, signal processors; transmitters and receivers for satellite communications; computer-operated network systems comprising computer hardware and software for transmitting data between computers connected in a network and for managing the computers and the transmission of the data on said network; computer information systems comprising computers and software for processing data, word processing and displaying of data; avionics systems comprising digital maps, fiber-optic and wire data busses, memory devices, instrumentation for displaying, storing, processing, and retrieving weather, tactical, strategic and secure data, aircraft cockpit controls and data displays; phased array antennas; global positioning equipment comprising data processors and displays; Computer software and computer hardware for use in air traffic control communications systems for displaying transporting, transmitting voice, data and images, controlling, switching, routing, and receiving air traffic information; computers and computer software for converting images into data, and for analyzing, displaying and printing the data in the field of two and three-dimensional image extraction, manipulation, display, and geographic registration; secure computer-operated systems consisting of computer hardware and computer software, and encrypted databases, all used for ensuring and controlling the security and access of a computer network and the information contained therein namely, tracking air traffic and transmitting encrypted messages to pilots database management, file transfer, and for connecting computers and databases in a network and for air traffic circulation management; airline management system comprising computers and software for database management and for exchanging aircraft and aircraft operations information; Television signal analysis processors, namely, electronic display panels for displaying signals, signal evaluation terminals primarily comprised of customized signal analysis hardware with integrated displays and software analysis components running on industry-standard computers and monitors for evaluating the quality of analog and digital signals, media analysis servers for verifying the quality of digital media content, signal interface modules, handheld signal analyzers, optical signal analyzers, circuit testers for monitoring broadcast signals, and video monitoring tools, namely, software-based video monitoring tools, namely, computer software for monitoring and logging the loudness of media content; timing reference generators, namely, time reference signal generators for broadcast system timing signal and test signal generation; hardware and computer software for television production, post-production and broadcast, namely, demodulators, digital signage, namely, dynamic electronic displays and networking computer servers and computer software for managing and controlling dynamic electronic displays, distribution amplifiers, audio/video editors, namely, computer workstations equipped with computer software for editing audio and video program material, computer hardware and computer software sold as a unit for generating characters and graphics, computer software for generating

visual effects, computer hardware and computer software sold as a unit for generating and inserting on-air branding, emergency alert modules, namely, computerized electronic modules and associated computer software for implementing the broadcasting of public emergency alert messages, fiber optic signal transports, electronic master control switchers for audio and video signals, audio and video signal compressors and audio and video signal decompressors, multiplexers and de-multiplexers, multiviewers, broadcast computer network monitoring and control application software, electronic network control panels, audio, video and data receivers and decoders, electronic routing switchers for audio and video signals, video servers, NTP (Network Time Protocol) timing modules comprised primarily of computer hardware and computer software for carrying out NTP timing, signal timing clocks, signal transport modules, audio/video sync and timing managers primarily comprised of high precision clock generation circuitry for synchronization of audio with video, computer software for creating and displaying timecode markers, up/down signal frequency converters, signal format cross converters, all for use in the media and entertainment industry; broadcast operations software for advertising, sales, traffic and billing, automation, digital asset management, programming and rights management, namely, computer software for managing, monitoring and automating the buying, selling, scheduling, research, inventory management, production tracking and accounting processes for advertising, and general content for the media and entertainment industry; computer software for controlling and monitoring switching systems for television and radio signals; computer software for managing, monitoring and automating the creation, movement, location, archiving, retrieval and use of digital media assets; business process management and messaging software, for managing and controlling human and automated workflows and multisystem communications for use in the media and entertainment industry; network management centers primarily comprised of mobile and portable radios and also containing electrical base station controllers, electrical communication controllers and electrical network controllers; mobile two-way communications radios; and non-mobile two-way communications radios; portable two-way communications radios; radio network gateways comprising computers, computer switches and associated computer software for voice and data communications; Internet protocol-based networks comprising computer hardware and computer software for interoperable communications; telecommunications equipment, namely, trunked radio communication systems for public service and industrial applications comprised of portable communications radios, electrical base station controllers, electrical communication controllers and circuit switches; control equipment for two-way mobile and two-way fixed radios, namely, base station equipment for fixed and mobile networking and communications, cell sites primarily comprised of electronic hardware, computer software, antennae, and base stations, control stations primarily comprised of, radio hardware and associated computer software, desktop control stations primarily comprised of radios, radio hardware and associated computer software, dispatch and console hardware, namely, dispatch consoles and software for carrying out emergency and non emergency communications and carrying out command and control of public safety personnel and assets, site management computer hardware and software for managing communications radios and base stations, and network monitoring computer hardware and software for monitoring communications radios and base stations; radio data communications systems primarily comprised of mobile communications radios and also containing non-mobile communications radios, portable communications radios, base station

controllers, communication controllers, and network controllers; communications radio network gateways comprised primarily of computers, computer switches and associated computer software for providing a gateway between networks; space deployable reflectors for satellite communications; computers and computer software for processing geographic elevation data representing the elevations of locations on the earth to generate, display and print three-dimensional geographically registered representations of those locations; computers and computer software for managing, cataloging and retrieving geospatial imagery, imagery derived products and other intelligence products through the synchronization of data catalogs across disparate storage locations; computers and computer software for managing, processing, exploiting and disseminating motion imagery intelligence; computers and computer software for managing, processing, exploiting and disseminating flight planning presentations to general aviation pilots and air traffic controllers; networking communications radios; shipboard communication terminals primarily comprised of antennae, pedestals, positioners, modems, up converters, down converters, amplifiers and user interfaces; ground communication terminals primarily comprised of antennae, pedestals, positioners, modems, up converters, down converters, amplifiers and user interfaces; computer information systems comprised mainly of computers and computer software for processing data, word processing and displaying of data in the fields of census information systems, healthcare information systems, intelligent electrical power distribution systems, weather reporting and forecasting systems, and environmental reporting and forecasting systems; avionics equipment, namely, video signal compressor and decompressors, power supplies, mounting racks specially adapted for mounting and interconnecting electronic apparatus, airborne signal processors for network interoperability and for targeting, of weapons secure network switches, computer software in the nature of networking protocols for facilitating the exchange of electronic messages and data, radio frequency (RF) data links for weapons, UHF/NHF wireless data links, beam former electronics primarily consisting of power amplifiers and also containing low noise amplifiers, phase shifters, time delay units, transmit and receive switches, array dividers, array combiners, frequency up-converters, frequency down-converters, array controllers and array power supplies and control equipment, antenna control units, attitude and heading reference units, transmit/receive control units, antenna position controllers and frequency band select switches; air traffic control communications systems consisting of computer hardware and computer software for displaying, transmitting, controlling, switching, routing, and receiving weather data; two-way radios for communication of voice, data, images and video for use by military and other government agencies; two-way communications radios, namely, voice and data communications radios operable across multiple frequency bands for enabling public safety officials and first responders such as law enforcement agencies, paramedics, firefighters and military personnel to communicate interoperable with one another even though their respective pre-existing communications infrastructures might otherwise be mutually incompatible; trunked radio communication systems for public service and industrial applications, namely, cellular base stations and mobile radio base stations for two-way mobile and fixed communications radios; loudspeakers for mobile two-way communications radios; loudspeakers for non-mobile two-way communications radios; battery chargers for two-way communications radios; Internet protocol-based communication networks comprised primarily of computer hardware and computer software for implementing interoperable communications; cryptographic modules namely, electronic modules

with embedded firmware for data encryption; encryption engines; radio frequency wireless communications adapters, namely, network interface cards; software for operating radio frequency wireless network interface cards; communications software for connecting radio frequency wireless network interface cards to a local area communications network; radio network gateways comprised primarily of computers, computer switches, and computer software in the field of voice and data communications; computer software for use in the field of air traffic control, namely, for the supervision, maintenance, administration, troubleshooting and configuration of computer software for monitoring the performance of air traffic control systems, mapping definition, uploading software updates and releases, access control, user definition, recovery, and diagnostic reporting), 35(Business management advice and consultation in the field of telecommunications logistics; Business consultation and assistance in the operation of telecommunication systems and networks for others; Business consultation and assistance in the field of telecommunications namely, the operation and administration of telecommunication networks and communication links for others.), 37(Technical consultation in the field of building construction of fixed-site earth-based facilities; Technical consultation and assistance in the field of construction, repair and maintenance of submarines and ships; Technical consultation concerning the installation, repair and maintenance of mobile and fixed-site earth-based facilities, satellites, and related computer information systems; Technical consultation and assistance in the field of deployment of computer hardware equipment and systems; IT and communication infrastructure upgrade services, namely, updating of computer hardware for IT and communication systems; Telecommunications system maintenance services, namely, maintenance of radio, television and digital communications equipment for others.), 38(Technical consultation in the field of satellite communications and communications by related communication information systems, namely, communications via satellite transmission, microwave products and telemetry and instrumentation; Consultation and technical assistance in the fields of secure communications and telemetry.), 42(Technical consultation and assistance in the field of avionics; Information technology consultation in the fields of submarines and ships, mobile and fixed-site earth-based facilities, satellites, and related information systems, namely, information security, communications microwave products and telemetry and instrumentation; Designing computer systems for software integration, maintenance and user-information services, operation support systems for software integration, maintenance and planning support services and provisioning, and provisioning control support services for satellite control networks, real-time defense communications systems, and real time defense intelligence collection systems; Designing computer systems for engineering support for satellite launches, deployed communication systems and deployed intelligence collection systems; Consultation and technical assistance in the fields of customization of computer hardware and software products; Consultation and assistance with computer program management services, computer site management services, and deployment and management of wireless communications networks of others and communications link management services; Technical support services, namely, troubleshooting in the nature of diagnosing and testing computer hardware and software problems: Providing an interactive web site that enables users to enter, access, monitor and generate designed strategic and tactical signal intelligence information reports; IT and communication infrastructure migration services; technical design and deployment of telecommunication networks and computer networks for others;

technical support services for migration of datacenter, server and database applications; data migration services; IT software applications management, enterprise services management, namely, management of software applications, management of restricting network, data, maintenance of computer software relating to computer security and prevention of computer risks; computer hardware and software consulting services; technical consulting in the field of telecommunications technology; technical consulting in the field of information technology (IT); updating and maintenance of computer software, information technology (IT) integration services; technical support, namely, monitoring of computer networks by remote access; remote computer network technical monitoring and software maintenance services; remote management of the information technology (IT) systems of others; planning, design and management of information technology (IT) systems; computer hardware and software design; computer network design for others; information assurance services for designing, deploying and operating secure communications systems and information networks, for safeguarding the confidentiality, integrity and availability of information systems and critical business data of others; design of radio, television and digital communications equipment for others; design and integration of telephone systems, communications systems, and information display systems) and 45(Consultation and technical assistance in the fields of information security and intelligence security services for secure and non-secure voice, data, and video communications, user authorization, recognition and message encryption.) (526): None (730): L3HARRIS TECHNOLOGIES, INC. of 1025 West NASA Boulevard, Melbourne, Florida 32919, United States of America (740): J. K. MUCHAE & COMPANY ADVOCATES of P.O. META

creating and managing social media profiles and user accounts; Interactive photo and video equipment, namely, kiosks for capturing, uploading, editing, printing and sharing digital images and video; Downloadable software for streaming multimedia entertainment content, audio-visual content, video content, and associated text and data; Downloadable software for enabling transmission of images, audio, audio visual and video content and data, Downloadable software for modifying photographs, images and audio. video, and audio-visual content. Downloadable software for use in taking and editing photographs and recording and editing Videos; Downloadable software for processing images, graphics, audio. video, and text; Downloadable software for collecting, managing, organizing, synchronizing, and the storage of data and information; Downloadable e-commerce software to allow users to perform electronic business transactions via a global computer and communication networks; Downloadable software and mobile application software providing a virtual marketplace, Downloadable software for sending and receiving electronic messages, alerts, notifications and reminders; '10. SIGN Downloadable software for file sharing, Downloadable messaging software; Computer search engine software, Downloadable software for use in creating. managing, measuring, and disseminating advertising of others; Advertisement server. namely, a computer server for storing advertisements and delivering advertisements to websites; Downloadable software for creating. sharing. disseminating and posting advertising; Downloadable software for geo-location based advertising and product and service promotion; Downloadable software that enables individuals, rousps, companies, and brands to create and maintain an online presence and interact with online communities for marketing purposes; Downloadable virtual reality software; Downloadable augmented reality software; Downloadable mixed reality software; Virtual reality software for interactive entertainment and virtual reality gaming; Augmented reality software for interactive entertainment and augmented reality gaming; Downloadable software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; Downloadable software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality and augmented reality experiences; Downloadable software for operating, configuring, and managing virtual reality headsets and controllers; Downloadable software for gesture recognition, object tracking, motion control, and content visualization; Software, firmware and hardware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; Downloadable software for navigating a virtual reality and augmented reality environments; Downloadable software for enabling users to experience virtual reality and augmented reality visualization, manipulation, and immersion; Downloadable software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; Downloadable software for use in creating and designing virtual reality and augmented reality software; Application programming interface (API) for computer software for developing virtual reality and augmented reality experiences; Virtual reality game computer hardware; Augmented reality game computer hardware; Mixed reality game computer hardware; Virtual reality computer hardware; Augmented reality computer hardware; Motion tracking sensors for virtual reality and augmented reality technology; Virtual reality hardware, namely, headsets, glasses, and controllers for engaging in virtual reality experiences and playing virtual reality games, Augmented reality hardware, namely, headsets, glasses, and controllers for engaging in augmented reality experiences and playing augmented reality games;

Wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality and augmented reality world experiences: Hardware and software for operating sensor devices; Electronic sensor devices, cameras, projectors, and microphones for gesture, facial, and voice detection, capture and recognition; Hardware and software for detecting objects, user gestures and commands, Downloadable electronic game software in the nature of video games, computer games, interactive multimedia games, and virtual, augmented, and mixed reality games; Computer software for controlling the operation of audio and video devices; Video display software; Downloadable software for accessing and viewing text, images and electronic data relating to conferences in the field of software development; Downloadable software for converting natural language into machine- executable commands; Downloadable software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; Application programming interface (API) for use in developing AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Downloadable software, namely, an interpretive interface for facilitating interaction between humans and machines; Artificial intelligence software, namely, machine learning software, visual perception software, speech or language recognition software, decision-making software, translation software, touch recognition software, conversational query software, software for converting natural language into machine-executable commands, and digital assistant software; Downloadable virtual assistant software that can perform tasks or services on behalf of a user that is activated by user input, location awareness, and online information; Downloadable software for providing consumer information; Downloadable software for providing electronic maps; Location-aware downloadable software for searching, determining, and sharing locations; Downloadable software for searching and identifying employment opportunities; Downloadable software for identifying and allowing users to contact government representatives; Downloadable software providing location-based weather information; Downloadable software providing, linking to, or streaming news or current events information, Parental control software; Computer software; Computer operating systems; Downloadable software for enabling electronic devices to share data and communicate with each other; Computer peripheral devices; Wearable peripherals for computers, tablet computers, mobile devices and mobile telephones; Digital media streaming devices; Headsets and headphones; Video display hardware, namely, video drivers for Video eyewear; Cameras; Batteries; Battery cases; Battery packs; Rechargeable electric battery devices, namely, rechargeable batteries and portable power supplies; Battery chargers; Rechargeable external battery packs for use with mobile electronic devices; Power charging and power management devices for mobile electronic devices; Charging stands for mobile electronic devices; External chargers for use With computers, tablet computers. mobile devices and mobile telephones, Wireless charging cases for use with computers, tablet computers, mobile devices and mobile telephones; Power adapters: Electrical adapters, cable, and connectors; Bags and cases specially adapted for mobile electronic devices; Protective covers and cases for mobile electronic devices; Holders, armbands, clips and carrying Cases specially adapted for mobile electronic devices; Wall mounts for mounting mobile electronic devices; Stands_for mobile electronic devices; Holders for mobile electronic devices, Remote controls for mobile electronic devices; Audio speakers; Electrical audio and speaker cables and connectors; Electronic cables parts and fittings; Electronic cables, Cables for optical signal transmission, Power cables and cable

connectors, Microphones, Audio receivers; Audio transmitters; Head-mounted video display; Receivers of electronic signals; Video receivers, Wireless transmitters and receivers for reproduction of sound and signals; Electric sensors; Sensors for monitoring physical movements; SIM cards; Downloadable software for use in customer relationship management (CRM); Downloadable software for facilitating and arranging for the financing and distribution of fund raising and donations; Downloadable software for online charitable fundraising services and financial donation services; Downloadable software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, instant message and online social networking services; Telecommunications equipment for providing third party access to, and enabling the transmission of video, data and voice over, global communications networks, namely, mobile and access computer and mobile telephone terminals, base transceiver stations and wireless radio parts thereof, data transceivers, data repeaters, routers and switches, transmission circuits, integrated circuits, computer hardware, mobile cloud clients and servers, multiplexers, digital signal processors, radio frequency signal processors, mobile switching circuits, air traffic electrical controllers, mobility electrical controllers, access electrical controllers, remote port electrical controllers, radio ports, antennas, electronic radio components, software for telecommunications applications, and mobile core networks comprising data transceivers, wireless networks and gateways for collection, transmission and management of data, voice and video; Communication software and communication computer hardware for providing access to the Internet; Telecommunications equipment; Radio receivers and transmitters; GPS receivers; Downloadable software to allow users to perform e-commerce transactions via the internet and communications networks; Downloadable computer software that allows users to make payments and transfer funds; Downloadable computer software that enables on line users to make payments and transfer funds across multiple websites and mobile applications; Downloadable computer software for processing electronic payments; Computer software in the nature of a query engine; Downloadable software for facilitating machine learning; Downloadable software for building user interfaces; Downloadable electronic publications; Downloadable software for opinion polling; Downloadable software allowing users to post questions with answer options, Interactive photo and video equipment, namely, kiosks computer hardware for capturing, uploading, editing, printing and sharing digital images and video; Downloadable software for the synchronization of data between a remote station or device and a fixed or remote station or device; Voice command and recognition software, speech to text conversion software; Voice-enabled software applications for personal information management; Home automation and home device integration software; Wireless communication software for voice, audio, video, and data transmission; Downloadable software used for controlling stand-alone voice controlled information and personal assistant devices; Downloadable software for voice recognition for use in connection with the transmission of voice and data, Downloadable software for accessing, browsing, and searching online databases, audio, video, and multimedia content, games, and software applications, and software application marketplaces; Downloadable software for use to connect and control internet of things (IoT) electronic devices; Computer application software for handheld wireless devices, namely, software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Downloadable software for processing, reproducing,

synchronizing, recording, organizing, downloading, uploading, transmitting, streaming, receiving, playing and viewing text, multimedia and data files; Downloadable software, for personalized, interactive television (TV) programming and for use in displaying and manipulating visual media, graphic images, text, photographs, illustrations, digital animation, video clips, film footage and audio data; Downloadable software 111 the nature of a mobile application for telecommunication services for providing transmission of voice, data, video, and media content via the internet and the worldwide web for computers - other portable consumer electronic devices. Downloadable software for searching television entertainment exploration guides; Downloadable software for searching, locating, compiling, indexing, correlating, navigating, obtaining, downloading, receiving, encoding, decoding, playing, storing and organizing text, data, images, graphics, audio and video on a global computer network; Downloadable software to enhance mobile access to the internet via computers, mobile computers, and mobile communications devices; Downloadable software for formatting and converting content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works into a format compatible with portable electronic devices and computers, Electronic communication equipment and instruments, namely, mobile and wearable digital electronic devices for sending and receiving of text, data, audio, image, and video files; Telecommunications apparatus and instruments, namely, speakers and microphones sold as component features of computers, mobile and wearable digital electronic devices for the sending and receiving of telephone calls, text messages, electronic mail, and other digital data, and for use in providing access to the internet: Electronic notepads; Electronic personal organizers; Electronic voice recording and voice recognition apparatus; Portable digital electronic devices for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, and digital files; Wearable computer hardware; Wearable digital electronic devices comprised primarily of software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; Downloadable software for accessing, browsing and searching online databases; Downloadable software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, Images, audio, video, and multimedia content; Downloadable software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, electronic publications, and electronic games; Apparatus for recording, transmission or reproduction of sound or images; Apparatus for transmission of communication; Apparatus for data storage, namely, mobile and wearable digital electronic devices for the storage of text, data, audio, image, and video files; Blockchain; Blockchain software; Downloadable software in the field of blockchain; Downloadable software for use with digital currency, crypto currency and virtual currency; Digital currency wallet and storage services software; Downloadable computer software for use as a cryptocurrency wallet; Cryptocurrency hardware wallet; Downloadable computer software for use as a digital wallet; Downloadable computer software for use as an electronic wallet; Computer programs and downloadable computer application software for electronic storage of data; Downloadable software for providing a digital wallet; Downloadable software for digital currency payment

and exchange transactions; Downloadable software for use in managing portfolios of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Downloadable software for electronic wallet services; Downloadable e-wallets; Distributed ledger platform software; Software for use with distributed ledger technology; Downloadable software which facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Downloadable software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Downloadable software for implementing and recording financial transactions; Downloadable software for use in financial trading; Downloadable software for use in financial exchange; Downloadable software for accessing financial information and market data and trends; Downloadable software for providing authentication of parties to a financial transaction; Downloadable software for maintaining ledgers for financial transactions; Downloadable software for the management of cryptographic security of electronic transmissions across computer networks; Downloadable software for encrypting and enabling secure transmission of digital information over the Internet; Downloadable software for allowing users to calculate parameters related to financial transactions; Downloadable software for electronic funds transfer; Downloadable software for currency conversion; Downloadable software for the collection and distribution of data; Downloadable software for payment transactions; Downloadable software for connecting computers to local data bases and global computer networks; Downloadable software for creating searchable databases of information and data; Downloadable software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions; Downloadable software for creating and managing smart contracts; Downloadable software for managing payment and exchange transactions; Downloadable software and hardware for use as a digital currency wallet, virtual currency wallet, digital asset wallet, crypto token wallet, and utility wallet; Downloadable software for creating a decentralized and open source digital currency, virtual currency, cryptocurrency, digitized assets, digital token for use in blockchain-based transactions; Computer application software for blockchain-based platforms, namely, software for digital exchanges for virtual items; Downloadable software for creating, selling and managing blockchain-based tokens or appcoins, Downloadable software for use in an electronic financial platform, Downloadable software for processing electronic payments and for transferring funds to and from others; Blockchain platform software; Downloadable software for use in the management and implementation of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; Downloadable software for creating and managing a blockchain platform for use in managing digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; Downloadable software for managing crypto currency and digital currency accounts; downloadable software for use in payments, purchases, and investments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Downloadable software for use as an application programming 4.

interface (API) for the development, testing, and integration of blockchain software applications; Computer hardware for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, and digitized asset mining; Security token hardware; Electronic currency converters; Downloadable software, namely, electronic financial platform that accommodates multiple types of payment and transactions In an Integrated mobile phone, personal digital assistant (PDA), and web-based environment; Downloadable software for creating tokens to be used to pay for products and services, and that may be traded or exchanged for cash value; Downloadable software for managing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized asset, digital token, crypto token and utility token payments, money transfers, and commodity transfers; Downloadable software for use as an application program interface (API) software for use In compgter hardware device identification; Downloadable software for use in authenticating user access to computers and computer networks; Downloadable software for use in facilitating secure transactions; Downloadable software for use in accessing, reading, tracking, and using blockchain technology; Downloadable software and hardware for managing identity information, access rights to information resources and applications and authentication functionality; Downloadable software for network identification verification, authentication and management services for security purposes; Downloadable authentication software for controlling access to and communications with computers and computer networks; Magnetically encoded credit cards and payment cards; Encryption devices; Security tokens; Downloadable software for use as a security token; Downloadable software used In issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Crypto tokens and utility tokens; Downloadable software used in auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Ad server, namely, a computer server for storing advertisements and delivering advertisements to websites; Altimeters; Application programming interface (API) for computer software for developing and creating virtual reality, augmented reality and mixed reality experiences; Application programming interface (API) for computer software which facilitates on line services for social networking and for data retrieval, upload, download, access and management; Application programming interface (API) for software which facilitates online services for social networking and for data retrieval, upload, download, access and management; Application programming interface (API) for use in building software applications; Augmented reality glasses; Augmented reality headsets; Augmented reality software; Augmented reality software for interactive entertainment; Augmented reality software for navigating an augmented reality environment; Augmented reality software for object tracking, motion control and content visualization, Augmented reality software for operating augmented reality headsets; Augmented reality software for users to experience augmented reality visualization, manipulation and immersion; Cables, namely, electronic cables and connection cables; Cases, straps, wrist and arm bands for electronic monitoring devices; Computer application software for smartphones and mobile devices in the fields of fitness and exercise featuring personal training services, coaching, workouts and fitness assessments; Computer application software for use in connection with configuring and controlling wearable computer hardware and wearable computer peripherals; Computer hardware for displaying data and video; Computer hardware for use in measuring heart rhythm; Computer hardware for use in taking electrocardiograms; Computer operating

system software; Computer peripheral equipment for use with smartwatches, namely, smartwatch bands and smartwatch straps; Computer peripherals for displaying data and video; Computer peripherals for mobile devices for displaying data and video, namely, peripherals worn on the head for mobile devices for displaying data and video; Computer peripherals for mobile devices for remotely accessing and transmitting data, namely, peripherals worn on the head for mobile devices for remotely accessing and transmitting data; Computer peripherals for mobile devices, namely, electronic devices, monitors, sensors, and displays for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; Computer peripherals for remotely accessing and transmitting data; Computer software and computer application software for mobile phones and personal digital devices that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; Computer software and computer application software for mobile phones and personal digital devices that monitor, track, and compare sport activity and fitness level; Computer software and computer application 4. software for mobile phones and personal digital devices that evaluates a user's fitness level and athleticism, and provides fitness scores; Computer software and computer application software for mobile phones and personal digital devices that provides tips, coaching, and personalized workouts, to improve the user's fitness score; Computer software and computer application software for mobile phones and personal digital devices for communicating with gaming consoles, personal computers, personal digital devices, and mobile phones, regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; Computer software and computer application software for mobile phones and personal digital devices for monitoring, uploading, and down loading data regarding sport activity, fitness training, and fitness level to the internet and other computer and electronic communication networks; Computer software and computer application software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; Computer software and firmware, namely, operating system programs, database synchronization software, and data synchronization programs; Computer software development tools; Computer software for accessing, browsing and searching online databases; Computer software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; Computer software for communicating with gaming consoles regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; Computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, and electronic publications, and electronic games; Computer software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or

Information via computer the Internet and communication networks; Computer software for creating, managing, and interacting with an on line community, Computer software for fitness and weight management; Computer software for fitness, fitness assessments, and sport activities; Computer software for integrating electronic data with real world environments for the purposes of entertainment, communicating, and social networking, Computer software for managing information regarding tracking, compliance and motivation with a health and fitness program; Computer software for modifying and enabling transmission of images, audio, audio visual and video content and data; Computer software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and virtual reality, mixed reality and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Computer software for monitoring, processing, displaying, storing and transmitting data relating to a user's physical activity; Computer software for processing images, graphics, audio, video, and text, Computer software for sending and receiving electronic messages, graphics, images, audio and audio visual content via computer the Internet and communication networks: Computer software for sending and receiving electronic messages, alerts, notifications and reminders; Computer software for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational Information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data, Computer software for setting up, configuring, operating and controlling mobile devices, wearable devices, mobile phones, computers, and computer peripherals: Computer software for social networking and interacting with on line communities, Computer software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and Information, Computer software for the redirection of messages, Internet e- mail, and/or other data to one or more electronic wearable wireless communication devices from a data store on or associated with a personal computer or a server; Computer software for tracking and managing information regarding health, fitness, and wellness programs, Computer software for use as an application programming interface (API); Computer software for use in creating, managing, measuring, and disseminating advertising of others; Computer software for viewing digital images and photographs provided as updates for or in combination with head-mounted display screen devices: Computer software for wireless content, data and Information delivery; Computer software for wireless data communication for receiving, processing, transmitting and displaying Information relating to fitness, body fat, body mass Index, Computer software in the field of health, fitness, exercise, and wellness for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data and for tracking and managing information regarding health, fitness, exercise, and wellness programs: Computer software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments: Computer software that evaluates a user's fitness level and athleticism, and provides fitness scores: Computer software that monitor, track, and compare sport activity and fitness level: Computer software that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a

particular sport or fitness activity: Computer software that provides tips, coaching, and personalized workouts, to improve the user's fitness score: Computer software to enable accessing, displaying, editing, linking, sharing and otherwise providing electronic media and information via the internet and communications networks: Computer software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, hand held computers and computer tablets: Computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen devices: Computer software, downloadable computer software and mobile application software for creating, managing and accessing groups within virtual communities; Computer software, namely, an application providing social networking functionalities: Computer software, namely, an interpretive interface for facilitating interaction between humans and machines; Computer software, namely, software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphones; Computers, namely, smartwatches; Connection cables; Digital video eyewear; Digital video eyewear, head mounted video displays, namely, micro screens and associated optics, virtual reality headsets, associated electronics, namely, connection cables and adaptors, software and firmware for displaying video games, electronic media and images; Downloadable computer application software for mobile phones, smartphones, computers, tablets, smart glasses, digital video eyewear, wearable digital electronic devices, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, communications networks, cloud computing services, and computer systems for communicating between the devices, networks and services; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera to record and display images and audio visual files, organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications, controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays, including accelerometers, barometric, temperature, tilt, tip, and yaw sensors, head orientation sensors, and GPS receivers, controlling the speed of the CPU, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images, and audio visual content in standard reality, augmented reality, and mixed reality environments: Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for the generation and display of standard reality, augmented reality, mixed reality content; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for communication with other smart glasses, near eye display systems, and head mounted displays: Downloadable computer software for enabling capture, storage, and transmission of photographs, videos, data, and information with a user's biometric, health, and other performance data overlaid and integrated into the recording: Downloadable computer software for viewing and interacting with a feed of images, audio, audio-visual and video content and associated text and data:

Downloadable computer software, namely, downloadable mobile application for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; Electric cables; Electrical adapters; Electronic monitoring devices incorporating indicators that light up and change color based on wearer's cumulative activity level; Electronic monitoring devices incorporating microprocessors, digital display, and accelerometers, for detecting, storing, reporting, monitoring, uploading and downloading sport, fitness training, and activity data to the Internet, and communication with gaming consoles and personal computers, regarding time, pace, speed, steps taken, athletic skill, calories burned, heart and body rate, global positioning, direction, distance, altitude, navigational and weather information; Electronic navigational Instruments and apparatus; Fitness and exercise sensors, monitors, and displays for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, temperature, and navigational information, to be worn during exercise and for sports activities; Gesture recognition software; Glasses with the function of wireless communication; Global positioning system (GPS) devices; Goggles for enabling virtual reality, augmented reality and mixed reality world experiences; Hardware and software to view virtual images in creating virtual, augmented and mixed reality; Head mounted video display; Head-mounted display screen devices and their component parts namely, video display cards; Headsets; Headsets for use with computers; interactive entertainment software; interface electronics, namely, video driver interface circuits for digital video eyewear; Location-aware computer software, downloadable computer software and mobile application software for searching, determining and sharing locations; Loudspeakers; Messaging software; Microdisplays, namely, head mounted video displays and near eye video displays; Mixed reality computer hardware; Mixed reality glasses; Mixed reality headsets; Mixed reality software; Mixed reality software for interactive entertainment; Mixed reality software for navigating a mixed reality environment; Mixed reality software for object tracking, motion control and content visualization; Mixed reality software for operating mixed reality headsets; Mixed reality software for users to experience mixed reality visualization, manipulation and immersion; Mobile application software for creating personalized fitness training programs; Motion tracking sensors for augmented reality technology; Motion tracking sensors for mixed reality technology; Motion tracking sensors for virtual reality technology; Multifunctional electronic devices for displaying, measuring, and uploading to the Internet information including time, date, body and heart rates, global positioning, direction, distance, altitude, speed, steps taken, calories burned, navigational information, weather information, the temperature, wind speed, and the declination of body and heart rates, altitude and speed; Multifunctional electronic devices for displaying, measuring, and uploading to the Internet information including time, date, heart rate, global positioning, direction, distance, altitude, speed, steps taken, calories burned, navigational information, changes in heart rate, activity level, hours slept, quality of sleep, and silent wake alarm, Near eye display optics, namely, video display screens for mounting near a user's eyes and lenses for displaying images to a user; Near eye display systems comprised of GPS sensors, accelerometers, magnetometers, directional compasses, environment temperature sensors, and electronic tip and tilt orientation sensors; Near eye display systems comprising computer hardware, electronic display interfaces, and software for the generation and display of virtual reality and mixed reality content; Near eye display systems comprising computer hardware, electronic display interfaces, and software specifically

adapted for goggles; Near eye display systems comprising eyewear and software for the generation and display of standard reality, augmented reality, and mixed reality content; Near eye displays; Network communication apparatus, namely, mobile and wearable digital electronic devices for the sending and receiving of text, data, audio, image, and video files across networks; Pedometers; Peripherals for mobile devices, namely, pedometers and altimeters; Personal assistant software; Personal digital assistants; Personal electronic devices used to track fitness goals and statistics; Personal fitness trackers; Personal video display devices in the nature of wearable displays for viewing digital content including virtual reality, augmented reality and mixed reality content; Personal video display screens; Portable, handheld, and personal digital electronic devices for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, and digital files; Remote control apparatus for wearable computer hardware and smartwatches; Sensors for scientific use to be worn by a human to gather human biometric data, mobile and wearable digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text, data, audio, image and video files; Smart glasses; Smart glasses with wired and wireless audio capability; Smartwatch bands; Smartwatch straps; Smartwatches; Social assistant software; Software and firmware for controlling, configuring and managing controllers; Software and firmware for displaying video games and electronic media on display screen devices provided as updates for or in combination with head-mounted display screen devices; Software and firmware for operating system programs; Software and firmware for video drivers and video processing provided as updates for or in combination with head-mounted display screen devices; Software and firmware for enabling electronic devices to share data and communicate with each other; Software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; Software for advertisers to communicate and interact with on line communities; Software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; Software for communicating by wireless local area networks, wireless technologies, and other communication protocols between near-eye display systems and network devices, namely, mobile phones, smart phones, computers, tablets, and other computer systems; Software for converting natural language into machine-executable commands; Software for creating and managing social media profiles and user accounts; Software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer and communication networks; Software for creating, managing and accessing groups within virtual communities; Software for creating, managing, and interacting with an on line community; Software for facilitating and arranging for the fundraising and distribution of fundraising and donations; Software for generating images to be displayed in near-eye display system, Software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; Software for modifying and enabling transmission of images, audio, audio visual and video content and data; Software for online charitable fund raising services and financial donation services; Software for ordering and/or purchasing goods and services; Software for organizing, searching for and managing events; Software for planning activities with other users, making recommendations; Software for processing images, graphics, audio, Video, and text;

Software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; Software for smart phones and other computer systems to generate data, images, and audio for display in near-eye display systems and for transmitting such data, images, audio to near-eye display systems, Software for smart phones and other computer systems to receive data from near-eye display systems; Software for social and destination mapping; Software for social networking; Software for streaming multimedia entertainment content, Software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information, Software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented, mixed and virtual reality experiences; Software for use as an application programming interface (API); Software for use in creating and designing virtual reality, augmented reality and mixed reality software; Software for wireless content, data and information delivery; Software in the nature of a mobile application; Software that enables individuals, groups, companies, and brands to create and maintain an on line presence for marketing purposes; Software, namely, an interpretive interface for facilitating interaction between humans and machines; Telecommunications apparatus and instruments, namely, speakers and microphones sold as component features of computers, mobile and wearable digital electronic devices for the sending and receiving of telephone calls, text messages, electronic mail, and other digital data, and for use in providing access to the internet; Virtual reality glasses; Virtual reality headsets, Virtual reality software; Virtual reality software for interactive entertainment; Virtual reality software for navigating a Virtual reality environment; Virtual reality software for object tracking, motion control and content visualization; Virtual reality software for operating virtual reality headsets; Virtual reality software for users to experience virtual reality visualization, manipulation and immersion; Virtual, augmented, and mixed reality software for use in enabling computers, video game consoles, hand held video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual, augmented, and mixed reality experiences; Watches, bracelets, and wrist bands that communicate data to personal digital assistants, smart phones, and personal computers through Internet websites and other computer and electronic communication networks; Waterproof near eye display systems comprising computer hardware, electronic display interfaces, and software for the generation and display of virtual reality and mixed reality content; Wearable activity trackers; Wearable computer peripherals; Wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable Virtual reality, augmented reality and mixed reality world experiences; Wearable digital electronic devices comprised primarily of software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; Wearable digital electronic devices, namely, glasses, goggles, and headsets; Wearable electronic devices, namely, watches, bracelets, and wristbands that are comprised of software that communicates data to personal digital assistants, smart phones, and personal computers through Internet websites and other computer and electronic communication networks; Wearable peripherals for computers, tablet computers, mobile devices and mobile telephones, namely, configurable head-mounted displays; Wireless computer peripherals.), 28(Virtual reality headsets for playing video games for connection to computers, video game consoles, hand held video game consoles. tablet computers, mobile devices, and mobile phones in order to enable virtual reality

experiences; Electronic and interactive multimedia game consoles; Video game interactive remote control units; Wearable peripherals for playing video games specially adapted for computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones; Game controllers for computer games; Audio and visual headsets for use in playing video games; Hand-held units for playing electronic, computer, interactive, and video games; Gaming devices, mobile gaming devices, namely, gaming machines with or without video output for playing computer games and video games; Computer game consoles for use with an external display screen or monitor; Apparatus for electronic games other than those adapted for use with an external display screen or monitor; Apparatus for electronic games adapted for use with an external display screen or monitor; Bags specially adapted for handheld video games and video game consoles; Computer and video game joysticks; Computer gaming consoles for recreational game playing; Fitted plastic films known as skins for covering and protecting electronic game playing apparatus, namely, video game consoles and hand-held video game units; Game controllers in the nature of keyboards for computer games; Games adapted for use with television receivers; Gaming headsets adapted for use in playing video games; Hand held joy stick units for playing video games; Handheld game consoles; Hand-held electronic games adapted for use with television receivers only; Hand-held games with liquid crystal displays; Hand-held units for playing electronic games for use with external display screen or monitor; Home video game machines; LCD game machines; Player-operated electronic controllers for electronic video game machines; Protective carrying cases specially adapted for handheld video games and video game consoles; Standalone video game machine; Stands for electronic game playing apparatus, namely, video game consoles and hand-held video game units; Tabletop units for playing electronic games other than in conjunction with a television or computer; Video game interactive hand held remote controls for playing electronic games; Controllers for game consoles; Arcade video game machines; Video game consoles; Games and playthings; Gymnastic and sporting articles not included in others; Decorations for Christmas trees; Body-building apparatus; Body-training apparatus; Body-training equipment; Equipment for sports and games; Exercise machines.), 35(Advertising services; Advertising via electronic media; Dissemination of advertising for others via a global computer network, Business and advertising services, namely, advertising services for tracking advertising performance, for managing, distributing and serving advertising, for analyzing advertising data, for reporting advertising data, and for optimizing advertising performance; Advertising services, namely, advertising campaign management, targeting, implementation and optimization services; Preparation and realization of media and advertising plans and concepts; Design of advertising materials for others; Advertising services, namely, media planning and media buying for others, brand evaluation and brand positioning services for others, and advertising procurement services for others; Ad serving, namely, placing advertisements on websites for others; Advertising, marketing and promoting the goods and services of others by means of providing photo and video equipment at special events; Organizing exhibitions and events in the field of software and hardware development for commercial or advertising purposes; Advertising services, namely, providing advertising space via the internet and other communication networks; Compiling of data in online computer data bases and online searchable data bases in the field of; Promoting the goods and services of others via computer and communication networks; Promoting the goods and services of others by means of distributing video advertising on via the internet and

other communications networks; Providing promotional events via live streaming video; Marketing and promotion services; Consulting services in the fields of advertising and marketing; Business assistance and consulting services; Business consultation regarding marketing activities; Brand strategy consulting services; Business consultation in the field of telecommunications; Business management consulting services to enable business entities, non-governmental organizations and non-profit organizations to develop, organize, and administer programs to offer greater access to global communications networks; Business networking services; Employment consultancy and recruiting services; Promoting sales for others by facilitating pre-paid gift card services, namely, issuing gift card certificates that may be redeemed for goods or services; Advertising services for promoting public awareness about charitable, philanthropic, volunteer, public and community service and humanitarian activities; Providing contest and incentive award programs for marketing and advertising purposes to recognize, reward and encourage individuals and groups which engage in self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and community service and humanitarian activities and sharing of creative work product; Business consultancy services for professionals and businesses in the field of mobile software application development; Organizing, promoting, arranging and conducting special events, exhibitions, and tradeshow for commercial, promotional or advertising purposes; Organizing and conducting events, exhibitions, expositions and conferences for commercial purposes in the interactive entertainment, virtual reality, consumer electronics and video game entertainment industries; On line retail store services featuring virtual reality and augmented reality hardware and software; On line retail store services featuring virtual reality content and digital media namely, pre-recorded music, video, images, text, audiovisual works and virtual and augmented reality game software; Providing online marketplaces for sellers of goods and/or services; Business intermediary services in the nature of facilitating the exchange and sale of services and products of third parties via computer and communication networks; Connecting buyers and sellers via an on line network environment; Promotional services, namely, providing electronic catalog services; Providing telephone directory information via global communications networks; Business assistance services, namely, customer relationship management; Providing commercial information, namely, user comments concerning business organizations, service providers, and other resources; Marketing research, namely, advertising campaign and consumer preferences research and analysis; Market research services; Provision of market research and information services; Business information management, namely, reporting of business information and business analytics in the fields of advertising and marketing; Business management; Business administration, office functions; Compiling online business directories featuring the businesses, products and services of others; Promoting the public interest and awareness of issues involving access to the internet for the global population; Association services, namely, promoting the adoption, acceptance and development of open source computer technologies; Organizing business networking events in the field of open source software; Promoting voluntary common industry standards for software development and execution, Arranging and conducting business conferences; Arranging and conducting business conferences in the field of programming language development and use; Conducting business investigations in the field of social media; Consulting services in the field of evaluating social media content; Consulting services in the field of social media policies and regulations; Marketing, advertising and promotion services; Business and advertising services; Market intelligence services; Providing a

consumer electronics and video game entertainment industries for cultural or educational purposes; Organizing exhibitions and events in the field of software development for educational purposes; Organizing exhibitions in the field of interactive entertainment, virtual reality, augmented reality, mixed reality, consumer electronics and video game entertainment industries for cultural or educational purposes; Organizing live exhibitions and conferences in the fields of culture, entertainment and social networking-for non-business and non-commercial purposes; Personal coaching services in the field of sports, exercise, health, and fitness; Photosharing and video sharing services; Pre-recorded athletic and fitness sessions; Providing a fitness assessment and a fitness score, and a personalized workout program based on that assessment and score; Providing a website featuring fitness coaching, instructions, and sessions; Providing a website featuring fitness instructions and sessions; Providing a website featuring information regarding fitness training, and athletic skill development; Providing a website featuring information regarding fitness training, fitness coaching, fitness goals, and athletic skill development; Providing a website featuring information regarding sports, athletic skill development, and fitness training; Providing a website featuring pre-recorded athletic and fitness sessions; Providing access to pre-recorded athletic and fitness sessions; Providing computer, electronic and online databases in the field of entertainment; Providing entertainment information from searchable indexes and databases of information, including text, electronic documents, data bases, graphics, photographic images and audio visual information, via the internet and communication networks; Providing group coaching in the field of sports, exercise, health, and fitness; Providing information regarding sports, athletic skill development, and fitness training via an online website, other computer and electronic communication networks, and via computer software for gaming consoles, personal computers, personal digital devices, and smart phones; Providing online resources for software developers; Providing pre-recorded athletic challenges, training, fitness sessions and challenges, and workouts via an on line website, other computer and electronic communication networks, and via computer software for gaming consoles, personal computers, personal digital devices, and smart phones; Publishing services, namely, publishing of electronic publications for others; Virtual reality video production), 42(Design and development of computer hardware and software; Providing on line non-downloadable software; Providing temporary use of non- downloadable software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Design, engineering, research, development and testing services in the field of mobile application software development related to the use and functionality of hyperlinks; Technical consultation in the field of mobile application software development related to the use and functionality of hyperlinks, Providing temporary use of non-downloadable software that gives users the ability to engage in social networking and manage their social networking content; Computer services, namely, creating an online community for registered users to engage in social networking; Providing temporary use of non-downloadable software for creating, managing and accessing user-created and administered groups within virtual communities; Providing temporary use of non-downloadable software for creating and managing social media profiles and user accounts; Providing temporary use of non- downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text, content, and data; Computer services in the nature of customized electronic personal and group profiles or

webpages featuring user-defined or specified information, including, audio, video, images, text, content, and data; Providing temporary use of non-downloadable software that enables users to transfer personal identity data to and share personal identity data with and among multiple websites; Application service provider (ASP) featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Platform as a service (PAAS) featuring software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Application service provider (ASP) featuring application programming interface (API) software which facilitates online services for social networking and developing software applications; Providing temporary use of non-downloadable software for viewing and interacting with a feed of electronic media, namely, images, audio-visual and video content, live streaming video, commentary, advertisements, news, and internet links; Providing temporary use of non-downloadable software for finding content and content publishers, and for subscribing to content: Providing temporary use of non-downloadable software for organizing images, video, and audio-visual content using metadata tags; Providing temporary use of non-downloadable software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, transmitting, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the internet and communication networks; Application service provider (ASP) featuring software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, transmitting, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the Internet and communication networks; Providing temporary use of non-downloadable software for sending and receiving electronic messages, alerts, notifications and reminders; Providing application programming interface (API) software for use in electronic messaging and transmission of audio, video, images, text, content and data; Providing temporary use of non-downloadable software for electronic messaging, Providing temporary use of non-downloadable software to facilitate interactive discussions via communication networks; Providing temporary use of non-downloadable software for organizing events, searching for events, calendaring and managing events; Providing temporary use of non-downloadable software for modifying photographs, images and audio, video, and audio-video content; Providing temporary use of non-downloadable computer software for use in taking and editing photographs and recording and editing videos; Application service provider (ASP) featuring software to enable or facilitate taking and editing photographs and recording and editing videos; Providing temporary use of non-downloadable software for streaming multimedia entertainment content Providing temporary use of non-downloadable computer software for enabling transmission of images, audio, audio visual and video content and data; Computer services, namely, providing search engines for obtaining data via the Internet and communications networks; Providing search engines of on line network environments to provide information from searchable indexes and databases of information, including text, electronic

documents, databases, graphics, electronic media, images and audio visual content, via the internet and communications networks; Application service provider (ASP) services, namely, hosting software applications of others; Providing temporary use of non-downloadable software for providing, linking to, or streaming news or current events information, Providing temporary use of non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet and communications networks, Application service provider (ASP) featuring application programming interface (API) software to allow users to perform electronic business transactions via the internet and communication networks; Software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts and for facilitating electronic business transactions via the internet and communications networks; Providing temporary use of non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; Application service provider (ASP) featuring application programming interface (API) software for creating, managing, tracking, reporting and measuring advertising of others; Providing non-downloadable software for allowing buyers and sellers of on line advertising to purchase and sell advertising inventory; Providing temporary use of non-downloadable software for creating, sharing, disseminating and posting advertising; Providing temporary use of non-downloadable software for creating and maintaining an online presence for individuals, groups, companies, and brands; Providing temporary use of non-downloadable software for advertisers to communicate and interact With on line communities; Providing temporary use of non-downloadable software for curating online user-defined content and advertisements and creating social media feeds; Designing and developing computer game software and video game software for use with computers, video game program systems and computer networks; Development of hardware for use in connection with electronic and interactive multimedia games; Providing temporary use of non-downloadable software that gives users the ability to upload, modify and share virtual reality content, augmented reality content, mixed reality content, information, experiences and data; Hosting of virtual reality and augmented reality content on the internet; Providing user authentication services using single sign-on and software technology for e-commerce transactions; Providing user authentication services of electronic funds transfer, credit and debit card and electronic check transactions using single sign-on and software technology; Providing an application programming interface (API) to allow users to perform electronic business transactions via the internet; Providing temporary use of non-downloadable software for processing electronic payments; Platform as a service (PAAS) services featuring computer software to allow users to perform business and e-commerce transactions; Providing temporary access to non-downloadable computer software for providing electronic maps; Application service provider (ASP) featuring software for providing electronic maps, Providing temporary use of non-downloadable computer software for searching, determining, and sharing locations; Providing temporary use of non-downloadable software for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; Providing temporary use of non-downloadable computer software for making reservations and bookings; Application service provider (ASP) featuring software to enable or facilitate making reservations and bookings; Providing temporary use of non-downloadable software that give users the ability to post ratings, reviews, referrals and recommendations

relating to businesses, restaurants, service providers, events, public services and government agencies; Providing temporary use of non-downloadable software for providing a virtual marketplace; Providing temporary use of non-downloadable computer software for ordering and/or purchasing goods and services; Application service provider (ASP) featuring software to enable or facilitate ordering and/or purchasing goods and services; Providing temporary use of non-downloadable software for searching and identifying employment opportunities; Providing temporary use of non-downloadable software for identifying and allowing users to contact government representatives; Providing temporary use of non-downloadable software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; Application service provider (ASP) featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms; Design of augmented reality and virtual reality effects for use in modifying photographs, images, videos and audio-visual content; Providing on line non-downloadable personal assistant software; Providing non-downloadable social assistant software; Providing temporary use of non-downloadable computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; Application service provider (ASP) services featuring software to enable or facilitate voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and on line social networking services; Providing a website featuring information in the fields of technology and software development via the internet and communication networks; Design and development of virtual reality and augmented reality and mixed reality hardware and software; Design and development of video game hardware and software; Software development; Development of interactive multimedia software; Maintenance and repair of computer software; Computer services, namely, cloud hosting provider services; Providing temporary use of online non-downloadable cloud computing software for use in electronic storage of data, Providing temporary use of on line non-downloadable cloud computing software for virtual, augmented reality applications and environments: File sharing services, namely, providing temporary use of non-downloadable featuring technology enabling users to upload and download electronic files; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and data bases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to hand held computers, laptops and mobile electronic devices; Computer services, namely, providing remote management of devices via computer networks, Wireless networks or the internet; Data encryption services, Encrypted electronic transmission and delivery of recovered data; Providing temporary use of online non-downloadable software and applications for customer relationship management (-RM); Application service provider (ASP) featuring software for customer relationship management (CRM); Computer services. in particular, application service provider featuring application programming interface (API) software for customer relationship management (CRM); Providing temporary use of non-downloadable software for facilitating and arranging fund raising and the distribution of fundraising donations; Providing temporary use of non-downloadable software for online charitable fund raising services and donation services; Scientific and technological services and research and design relating thereto; Industrial analysis and research services; Computer hardware and software design, development, installation and

maintenance; Research services and consulting in the field of information and telecommunications technology; Design of telecommunications apparatus and equipment, Consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; Providing online software platform featuring technology that enables online users to make payments and transfer funds; Providing on line software platform featuring technology that enables online users to make payments and funds transfers across multiple websites and mobile applications; Computer services, namely, application services provider featuring application programming interface (API) software to allow users to perform e-commerce transactions via the internet and communications networks; Software as a services (SAAS) services featuring software for facilitating e-commerce transactions via the internet and communications networks; Application service provider featuring an application programming interface (API) software to allow users to perform e-commerce transactions via the internet and communications networks; Providing temporary use of non-downloadable software for converting natural language into machine-executable commands; Analyzing and evaluating social media content; Developing standards for third-party social media content; Conducting proceedings relating to standards concerning third-party social media content; Content moderation and supervision; Web publishing, namely, publishing of decisions concerning third-party social media content; Providing temporary use of non-downloadable computer software in the nature of a query engine; Providing temporary use of non-downloadable computer software for use in performing queries on large amounts of data; Providing temporary use of non-downloadable computer software in the nature of a query engine functioning across business intelligence (81) tools; Providing temporary use of online non-downloadable artificial intelligence software for facilitating machine learning software; Application service provider (ASP) featuring software to enable or facilitate machine learning software; Providing temporary use of online non-downloadable software for machine learning; Providing temporary use of on line non-downloadable software tools for software development; Providing temporary use of online non-downloadable software for building user Interfaces, Application service provider (ASP) featuring software to enable or facilitate user interface building software, Electronic data storage; Electronic storage of photographs; Interactive hosting services which allow the users to publish and share their own content and images on line; Providing on-line non-downloadable software for database management; Computer network services; Providing temporary use of non-downloadable software for opinion polling, Providing software allowing users to post questions with answer options; Platform as a service (PAAS) services featuring technology that allows businesses, organizations and individuals to create and manage their online presences and to communicate with online users information and messages regarding their activities, products and services and to engage in business and social networking, Providing temporary use of non-downloadable software featuring technology that allows users to manage their business networking accounts; Providing temporary use of non-downloadable software for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; Platform as a service (PAAS) featuring computer software platforms for personal assistant software; Platform as a service (PAAS) featuring computer software platforms for home automation and home device integration software; Platform as a service (PAAS) featuring computer software platforms for wireless communication software for voice, audio, video, and data transmission; Software as a service (SAAS) featuring computer

software for personal information management; Providing temporary use of non-downloadable software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; Software as a service (SAAS) featuring computer software for use to connect and control internet of things (IoT) electronic devices, Software as a service (SAAS) featuring computer software for others to use for the development of software to manage, connect, and operate Internet of things (IoT) electronic devices; Software as a service (SAAS) featuring computer software for use as an application programming interface (API); Design, development and maintenance of proprietary computer software for others in the field of natural language, speech, language, and voice recognition excluding post-production of picture and sound recordings; Technical support and consultation services for developing applications; Information, advisory and consultancy services relating to voice command and recognition software, speech to text conversion software, and voice-enabled software applications, home automation, and internet-of-things software; Providing information, news, and commentary in the field of science and technology, home decorating, weather, and graphic, interior, product, and fashion design; Technological services, namely, data warehousing services; Application service provider (ASP), namely, hosting computer software applications through the Internet of others, Consultation services relating to programming of multimedia application management, computer programming, hardware, software, and computer system design and specification, Software as a service (SAAS) services, namely, hosting software for use by others for use providing an online database featuring a Wide range of general interest information via the internet; Providing temporary use of on-line non-downloadable mobile communications device software for enhancing mobile access to the internet via computers, mobile computers, and mobile communications devices; Technical support, namely, troubleshooting of computer hardware and software problems and mobile computer and mobile communications device hardware and software problems; Computer, mobile computer, and mobile communication device hardware and software consultation and design; Providing temporary use of non-downloadable computer software that enables users to access and down load computer software; Providing temporary use of on-line non-downloadable software and applications for accessing streaming audio arTd video files, games, social networks, text files, and multimedia files; Application service provider (ASP) featuring application programming interface (API) software for the streaming, storage, and sharing of video games, content, data and information; Computer software development In the field of mobile applications; Providing technical support services, namely, troubleshooting of computer software problems regarding the usage of communications equipment; Computer services; IT services; Application service provider (ASP) services, namely, hosting computer software applications of others; Application service provider (ASP) services, featuring e-commerce software for use as a payment gateway that authorizes processing of credit cards or direct payments for merchants; Application service provider (ASP) services, namely, providing, hosting, managing, developing, and maintaining applications, software, websites and data bases in the fields of information technology, blockchain, virtual currency, digital currency, cryptocurrency, and digital assets; Application service provider (ASP) services featuring software for use in virtual currency, digital currency, cryptocurrency, and digital asset exchange and transactions; Application service provider (ASP) featuring software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, commenting on, embedding, transmitting, and sharing or otherwise

providing electronic media or information via the internet and communications networks; Application service provider services featuring application programming interface (API) software to allow users to perform electronic business transactions via a global computer network, Application service provider (ASP) featuring software to enable or facilitate purchasing goods and services; Software as a service (SAAS) services; Platform as a service (PAAS) services; Providing temporary use of non-downloadable cloud computing software; Providing distributed ledger technology; Providing temporary use of non-downloadable software which facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Providing temporary use of non-downloadable software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Providing temporary use of non-downloadable software for implementing and recording financial transactions, for creating accounts and maintaining and managing information about financial transactions on distributed public ledgers and peer to peer payment networks; Providing temporary use of non-downloadable software for processing electronic payments and for transferring funds to and from others; Providing electronic financial platform software; Providing software for use as an application programming Interface (API) for the development, testing, and integration of blockchain software applications, Providing temporary use of non-downloadable software for transfers of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens between parties; Providing temporary use of non-downloadable software for use in financial trading; Providing temporary use of non-downloadable software for use in financial exchange; Providing temporary use of non-downloadable software for use in accessing financial information and market data and trends; Providing temporary use of non-downloadable software for the management of cryptographic security of electronic transmissions across computer networks; Providing temporary use of non-downloadable software for use with virtual currency; Providing software for use with digital currency; Providing software for use with cryptocurrency; Providing temporary use of non-downloadable software for use with digital currency wallet and storage services; Providing software for use as a cryptocurrency wallet; Providing software for use as an electronic wallet; Providing software for use as a digital wallet; Electronic data storage services; Providing temporary use of non-downloadable software for electronic funds transfer; Providing temporary use of non-downloadable software for currency conversion; Providing temporary use of non-downloadable software for the collection and distribution of data, Providing temporary use of non-downloadable software for payment transactions; Providing temporary use of non-downloadable software for connecting computers to local data bases and global computer networks; Providing temporary use of non-downloadable software for creating searchable databases of information and data; Providing temporary use of non-downloadable software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions; Providing temporary use of non-downloadable software for creating and managing smart contracts; Providing temporary use of non-downloadable software for managing payment and exchange transactions; Providing temporary use of non-downloadable software for electronically exchanging currency for

digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Providing temporary use of non-downloadable software for use in enabling the electronic transfer of funds to and from others; Providing temporary use of non-downloadable software for creating a decentralized and open source digital currency for use in blockchain-based transactions; Providing temporary use of non-downloadable software for creating a decentralized and open source virtual currency for use in blockchain-based transactions; Providing temporary use of non-downloadable software for creating a decentralized and open source cryptocurrency for use in blockchain-based transactions; Providing temporary use of non-downloadable software for encrypting and enabling secure transmission of digital information over the Internet, as well as over other modes of communication between computing devices; Distributed ledger platform software for use in processing financial transactions; Providing temporary use of non-downloadable software for electronic funds transfer and currency conversion; Providing a web portal featuring blogs and non-downloadable publications in the nature of articles, columns, and informational guides in the fields of virtual currencies, digital and blockchain assets and market and trading trends; Platform as a service (PAAS) featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software as a service (SAAS) featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Computer services, namely, creating an on-line virtual environment for the selling and purchasing of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Platform as a service (PAAS) featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; Software as a service (SAAS) featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; Computer services, namely, providing secure, private encrypted cloud storage services; Computer services, namely, providing open source decentralized cloud storage platform; Data encryption services featuring blockchain software technology and peer-to-peer protocols to provide secure, private, and encrypted cloud storage; Providing temporary use of non-downloadable software for use as a cryptocurrency wallet: Data mining, Providing temporary use of non-downloadable software for use with blockchain technology; Software as a service (SAAS) services featuring software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Platform as a service (PAAS) services featuring software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens, Platform as a service (PAAS) featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; Software as a service (SAAS) featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from,

and sell products and services to others; Blockchain-based software platforms and distributed computing software platforms for auditing and verifying digital information and codes; Design, development and Implementation of audit and security software for blockchain-based platforms; Providing temporary use of non-downloadable software for use in facilitating secure transactions; Providing temporary use of non-downloadable software for auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Design, development, and implementation of software for distributed computing platforms; Design, development, and implementation of software for blockchain; Design, development, and implementation of software for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token wallets; Design, development, and implementation of software for third-party verification services for digital currency transactions, including but not limited to transactions involving itcoin currency; Providing temporary use of non-downloadable software for users to buy and sell products by using digital currency, Virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Providing temporary use of non-downloadable software for use in accessing, reading, tracking, and using blockchain technology, Technical consultancy services related to digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; Platform as a service (PAAS) featuring computer software platforms for computer system and application development, deployment, and management; Software as a service (SAAS) featuring computer software platforms for computer system and application development, deployment, and management; Providing temporary use of non-downloadable software enabling users to develop, build and run distributed applications through an open-source peer-to-peer smart-contract and payment network platform; Providing temporary use of non-downloadable authentication software for controlling access to and communications with computers and computer networks; Providing temporary use of non-downloadable software for use in the exchange of virtual items; Providing a digital exchange; Providing temporary use of non-downloadable software for use in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized as; Application service provider (ASP); Application service provider (ASP) featuring application programming interface (API) software which facilitates on line services for social networking, developing software applications; Application service provider (ASP) featuring location-aware software for searching, determining and sharing the location of goods, services and events of interest; Application service provider (ASP) featuring software for mapping services, Application service provider (ASP) featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Application service provider (ASP) featuring software for use in buying, selling, designing, managing, tracking, valuing, optimizing, targeting, analyzing, delivery, and reporting of on line advertising and marketing; Application service provider (ASP) featuring software to enable or facilitate the sharing and displaying a user's location, planning activities with other users and making recommendations; Application service provider (ASP) featuring software to enable or facilitate Social and destination mapping; Application service provider (ASP) featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots: virtual agents

and virtual assistants; Application service provider (ASP) services; Application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Application service provider (ASP), namely, hosting, managing, developing and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, and mobile applications; Application service provider (ASP), namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; Application service provider (ASP), namely, remote hosting of computer applications of others; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to hand held computers, laptops and mobile electronic devices; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; Computer consulting, computer programming, Computer hardware and software consultation and design, Computer hardware, software, application, and network consulting services; Computer on line services, namely, providing information, online links and electronic resources related to sports, health, and fitness; Computer services in the nature of providing customized online pages/featuring user- defined or specified information, personal profiles, virtual reality, mixed reality, and augmented reality content and data; Computer services, namely, creating virtual communities for registered users to organize groups and events, participate in discussions, get feedback from their peers, and engage in social, business and community networking; Computer services, namely, curating online user-defined content and advertisements and creating social media feeds; Computer services, namely, hosting online web facilities for others for organizing and conducting meetings, events and interactive discussions via the internet and communication networks; Computer services, namely, providing information in the fields of technology and software development via the internet; Computer software development; Creating, maintaining and hosting of a website and other computer and electronic communication networks featuring information, online links, and electronic resources In the field of sports and fitness; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to enter, access, track progress, monitor and generate health, fitness, personal exercise, sports, and athletic activity information and achievements; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that-enables users to compete and compare athletic information and achievements with other users; Design and development of augmented reality hardware and software; Design and development of computer hardware and computer software; Design and development of interactive multimedia software; Design and development of mixed reality hardware and software; Design and development of virtual reality hardware and software, File sharing services, namely, providing online facilities for others featuring technology enabling users to upload and download electronic files; Hosting of digital content on the internet; Mapping services; Mobile computer and mobile communications device hardware and software consultation and design; Mobile computer and mobile communications device software design for others; Non-downloadable computer

software for displaying, aggregating, analyzing and organizing data and information in the fields of health, wellness, fitness, physical activity, weight management, sleep, and nutrition; Non-downloadable computer software for facilitating interaction and communication between humans and AI (artificial Intelligence) platforms, namely, bots, virtual agents and virtual assistants; Non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; Non-downloadable computer software for social and destination mapping; Non-downloadable computer software for tracking fitness, health and wellness goals and statistics; Non-downloadable software for creating personalized fitness training programs; Non-downloadable software for creating, managing and accessing user-created and administered private groups within virtual communities; Non-downloadable software for ordering and/or purchasing goods and services; Non-downloadable software for processing electronic payments; Non-downloadable software for providing a virtual marketplace; Non-downloadable software for providing personal training services, workouts and fitness assessments; Non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text and data; Non-downloadable software for streaming multimedia entertainment content; Non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Online ad-buying platform provider, namely, providing non-downloadable software programs for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; Online non-downloadable cloud computing software for use in electronic storage of data; Online non-downloadable cloud computing software for virtual, mixed and augmented reality applications and environments; On line non-downloadable computer software for use in providing retail and ordering services for a wide variety of consumer goods; Platform as a service (PAAS) featuring computer software platforms for use in purchasing and disseminating advertising; Platform as a service (PAAS) featuring computer software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information, Platform as a service (PAAS) featuring computer software platforms for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; Platform as a service (PAAS) featuring software platforms for social networking and transmission of Images, audio-visual content, video content and messages; Platform as a service (PAAS) services featuring computer software to allow users to perform electronic business and e-commerce transaction; Provide an interactive web site that enables users to enter, access, track progress, monitor and generate nutrition, calories, health, fitness, personal exercise, sports, and athletic activity information and achievements; Provide use of non-downloadable software to provide information regarding sports, athletic skill development, fitness coaching, and fitness training via an on line webs.te and other computer and electronic communication networks for gaming consoles, personal computers, personal digital devices, and smart phones: Providing an interactive web site that enables users to enter, access, track progress, monitor and generate calories, fitness, personal exercise, and athletic activity information and achievements; Providing an online network service that enables users to transfer personal identity data to and share personal identity data with and among multiple online facilities; Providing customized

computer searching services, namely, searching and retrieving information at the user's specific request via the internet; Providing information from searchable indexes and databases of information, including text, electronic documents, data bases, graphics, electronic media, images and audio visual content via the internet and communication networks; Providing internet search engines; Providing non-downloadable software to allow users to perform electronic business transactions via the internet and communications networks; Providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information, to transfer and share such information among multiple on line facilities to engage in SOCial networking, and to manage their social networking accounts; Providing online facilities that give users the ability to upload, modify and share audio, video, photographic images, text, graphics and data; Providing on line facilities featuring technology that enables onlme users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple on line facilities: Providing online non-downloadable software for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; Providing online sites that gives users the ability to upload, modify and share virtual reality, mixed reality and augmented reality content, information, experiences and data; Providing personal assistant software; Providing search platforms to allow users to request and receive photos, videos, text, data, images, and electronic works; Providing search platforms to allow users to request and receive content, text, visual works, audio works, audiovisual works, literary works, data, files, documents, and electronic works: Providing social assistant software: Providing software for facilitating and arranging for the financing and distribution of fund raising and donations; Providing software for online charitable fund raising services and financial donation services; Providing temporary access to non-downloadable computer software for mapping services: Providing temporary use of non-downloadable computer software and hosting online facilities to enable users to access and down load computer software; Providing temporary use of non-downloadable computer software enabling development, assessment, testing, and maintenance of mobile software applications for portable computing devices, namely, mobile phones, smartphones, hand held computers and computer tablets; Providing temporary use of non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; Providing temporary use of non-downloadable computer software for social and destination mapping; Providing temporary use of non-downloadable computer software for finding content and content publishers, and for subscribing to content; Providing temporary use of non-downloadable computer software for accessing, collecting, displaying, editing, linking, modifying, organizing, tagging, streaming, sharing, storing, transmitting, and otherwise providing electronic media, photographs, images, graphics, audio, videos, audio-visual content, data and information via the internet and communication networks; Providing temporary use of non-downloadable e- commerce software to allow users to perform electronic business transactions via the internet; Providing temporary use of non-downloadable location-aware computer software for searching, determining and sharing the location of goods, services and events of interest; Providing temporary use of non-downloadable software applications for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; Providing temporary use of non-downloadable software applications for providing location-based

weather information; Providing temporary use of non-downloadable software applications for providing, linking to, or streaming news or current events information; Providing temporary use of non-downloadable software for modifying photographs, images and audio, video, and audio-video content with photographic filters and virtual reality, mixed reality, and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Providing temporary use of non-downloadable software for taking photographs and recording audio, audio-visual and video content; Providing temporary use of non-downloadable software for uploading, downloading, archiving, enabling transmission of, and sharing images, audio-visual and video content and associated text and data, Providing temporary use of non-downloadable software for streaming multimedia entertainment content; Providing temporary use of online non-downloadable software and applications for instant messaging, voice over internet protocol (VOIP), video conferencing, and audio conferencing; Providing temporary use of online non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; Providing temporary use of non-downloadable software for taking photographs and recording audio, audio-visual and video content; Provision of Internet search engine services; Rental of computer software that gives users the ability to upload, edit, and share images, videos and audio-visual content; Software as a service (SAAS) featuring computer software for accessing, browsing, and searching online databases, audio, video and multimedia content, games, and software applications, software application marketplaces; Software as a service (SAAS) featuring computer software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; Software as a service (SAAS) featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, home climate devices and lighting products via wireless networks; Software as a service (SAAS) featuring computer software used for controlling stand-alone voice controlled information and personal assistant devices; Software as a service (SAAS) for use in designing, creating and analyzing data, metrics and reports in the areas of health, fitness, sleep, nutrition and wellness; Software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts; Software as a service (SAAS) services featuring software for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Software as a service (SAAS) services, namely, hosting software for use by others for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Software as a service (SAAS) services, namely, providing a customized website and mobile portal for individuals featuring data analytics based on physiological metrics for purposes of health monitoring; Software as a service (SAAS) that enables users to manage employee accounts, schedule and track employee participation, and facilitate and manage corporate fitness and wellness programs; Software for electronic messaging; Technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; Technological services, namely, data warehousing services) and 45(Online social networking and dating services; Social networking, social introduction and dating services provided via access to computer data bases and online searchable data bases in the fields of social networking, social introduction and dating, Providing information in the fields of social networking and social introduction; Providing social networking

services, namely, the provision of information in the field of personal development, self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and community services, and humanitarian activities; Providing concierge services for others to meet the needs of individuals, namely, booking reservations, facilitating personal purchases, arranging personal deliveries, making requested personal arrangements, providing recommendations on products and services, providing customer-specific information to meet individual needs; Legal services; Reviewing standards and practices relating to social media content, Compliance consulting in the field of social media; Consulting services in the field of online social networking and social media services; Authentication services; Online social investment network in the nature of an on-line social networking services in the field of investments; Providing a website featuring information on the development of privacy, security, blockchain and distributed ledger technologies, and data governance law, Regulatory compliance consultancy in the field of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token applications; On line social networking service for investors allowing financial trades and exchange of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Business identification verification services; Identification verification services; Online social networking services; Personal concierge services for others comprising making requested personal arrangements and reservations and providing customer-specific information to meet individual needs; Providing access to computer databases and on line searchable databases in the fields of social networking, social introduction and dating; Social introduction and networking and dating services; Social networking services related to sports, fitness, and coaching activities provided through a community website online and other computer and electronic communication networks; User verification services) **(526):** None **(730):** META PLATFORMS, INC of 1601 Willow Road, Menlo Park, California 94025, United States of America **(740):** NDUNGU NJORGE & KWACH ADVOCATES of P.O.BOX 41546 - 00100, NAIROBI, Kenya

11.4 Removals

Section 23 of the Trade Marks Act provides that registration of a trade mark in Kenya shall expire after a period of **ten (10) years**. The Act also provides that the proprietor of a registered trade mark may make an application for renewal of the trade mark upon completion of the prescribed Form TM 10 and payment of the prescribed renewal fee.

Rule 65 of the Trade Mark Rules provides that where no application for renewal of a registered trade mark is received upon expiry of the ten year period, the Registrar of Trade Marks shall notify the proprietor of this fact. Where no application for renewal of the registered trade mark is received within a period of **sixty (60) days** from the date of the notice for renewal by the Registrar, rule 67 of the Trade Mark Rules requires the Registrar of Trade Marks to publish this fact.

In accordance with the above provisions, the Registrar of Trade Marks hereby notifies the public that the proprietors of the trade marks indicated below were duly notified and that they did not file applications for renewal of their respective trade marks.

In accordance with the provisions of rules 67 and 68 of the Trade Mark Rules, the public is hereby notified as follows:

- (a) Where the proprietor of a registered trade mark makes an application for renewal of a mark that has been published herein and pays the renewal fee together with the additional prescribed late renewal fee **within thirty (30) days** from the date of this publication, the trade mark shall be renewed and shall not be removed from the Register of Trade Marks;
- (b) Where no application for renewal of a trade mark published herein is received **within thirty (30) days** from the date of this publication, the trade mark shall be forthwith removed from the Register of Trade Marks; and

Once the trade mark is removed from the Register of Trade Marks, the proprietor may thereafter make an application for renewal of the mark upon payment of the prescribed renewal fee together with the additional prescribed restoration fee. The trade mark shall then be restored to the Register of Trade Marks upon the Registrar of Trade Marks being satisfied that it is just to do so and upon imposing such conditions as the Registrar may deem fit.

TM. No.	Date of Application	Trade Mark	Class	Registered Proprietor	Expiry Date

11.7(a) Madrid Applications accepted for registration

The following are the marks whose international registration has been notified to Kenya as a designated contracting Party by the International Bureau, World Intellectual Property Organization (WIPO) and which are governed by the Madrid Agreement and the Madrid Protocol. The prescribed period of twelve (12) months and eighteen months (18) respectively for refusal of the marks commences from the notification date indicated herein for each mark.

NOTICE is given that any person who has grounds of opposition to the registration of any of the marks may, in accordance with the provisions of rule 11(1) of the Trade Marks (International Registration) Rules 2003, file a notice of opposition within sixty (60) days from the date of this Journal on form TM. No. 6 (in duplicate) together with a fee of Ksh 5,000/= (Kenyan residents) or US\$ 250 (non residents).

The period of filing the notice of opposition may be extended by the Registrar of Trade Marks as prescribed in the Trade Mark Rules. Any request for such extension should be made to the Registrar before the expiry of the sixty (60) day statutory period.

All the details of the marks advertised herein are available on WIPO's website www.wipo.int/romarin

11.7(b) Madrid Applications deemed registered automatically

The following are marks whose international registration has been notified to Kenya as a designated contracting party by the International Bureau. However, the prescribed period of twelve (12) or eighteen (18) months lapsed before the national processing was completed and subsequently were deemed registered automatically in accordance with Article 5(2) of the Madrid Agreement and the Protocol.

NOTICE is hereby given that any person aggrieved by the resultant automatic registration may, in accordance with the provisions of rule 21(2) of the Trade Marks (International Registration) Rules 2003, apply for rectification of the register under Rule 16(3).

All the details of the marks advertised herein are available on WIPO's website www.wipo.int/romarin

12.0 General Information

1. Patent, Utility Models and Industrial Design fees.

	Local (Kshs)	Foreign USD
Filing fee	3, 000	150
Publication fee	3, 000	150
Registration fee	1, 000	50
Renewal fee (after five years from application date)	10, 000	500

The complete list of fees is available on the Institute website: www.kipi.go.ke.

2. African Regional Intellectual Property Organization (ARIPO)

ARIPO is a regional body established by African governments to have a central office to among other things, process and grant industrial property rights on behalf of member states. ARIPO grants patents, utility models and industrial designs on behalf of Kenya. Currently, ARIPO consists of the following 16 member states; Botswana, Gambia, Ghana, Kenya, Lesotho, Liberia, Malawi, Mozambique, Namibia Sierra Leone, Sudan, Swaziland, Tanzania, Uganda, Zambia and Zimbabwe. Kenyan applicants are required by law to first file with the Institute before filing with ARIPO. ARIPO secretariat is located in Harare Zimbabwe.

The complete fee schedule for ARIPO is available on their website <http://www.aripo.org>. The following are the fees an applicant is required to pay immediately on application.

	Patents	Utility Models	Industrial Designs
Filing fee	USD 250	USD 100	USD 50
Designation fee (multiply with no. of designated countries)	USD 75	USD 20	USD 10
Transmission fee	Kshs 5000	Kshs 5000	Kshs 5000

3. Patent Cooperation Treaty

The Patent Cooperation Treaty (PCT) is an international patent protection treaty consisting of over 140 member states. PCT is administered by the World Intellectual Property Organization in Geneva Switzerland. PCT makes it possible for an applicant to seek patent protection for an invention simultaneously in any of the selected member states by filing one application. PCT is a filing system and does not grant patents on behalf of the member states. Applications must enter national phase in the selected member states. In the national phase, the applicant is required to pay the prescribed national fees in the said member states. Further, in

some member states, a foreign applicant is required to have a resident agent. The PCT fees as of 1st May 2011 are as follows:

Type of fee	Fee		Fee waivers
International filing fee	USD 1, 367 or CHF 1330		90% waiver for a natural person from Kenya
Search fees (only one search authority needs to be selected by applicant)	Austria	USD 2, 443	75% waiver for natural a person from Kenya
	Australia	USD 1, 837	None
	China	USD 314	None
	European Patent office	USD 2, 443	75% waiver for a natural person from Kenya
	Sweden	USD 2, 443	None
Transmittal fee	Kshs 5000		-

More information is available on the PCT website www.wipo.int/pct/en

4. Kenya is a signatory to the following Treaties related to industrial property rights:

No.	Treaty	Year of accession/ratification
1.	The Lusaka Agreement, establishing the African Regional Intellectual Property Organization	15 th February 1978
2.	The Protocol on Patents and Industrial Designs (Harare Protocol)	24 th October 1984

10.	Application fee for an application, under r. 85(2) or 101(2), to make a correction to the Register for which a fee is not otherwise specified, for each trade mark: for the first class for each subsequent class	2, 000 1, 000		TM 19
11.	Application fee for an application, under r. 85(2) or 101(2), to change the name or description of the proprietor or a registered user: for the first class for each subsequent class	3, 000 500	100 50	TM 20
12.	Fee for appointing an agent, under r. 14(2), to act in a proceeding or matter before or affecting the Registrar	1, 000	50	TM 1
13.	Application fee for an application, under r. 102, for an extension of time, other than an extension of time prescribed by rule 76: a. extension not exceeding 30 days	 1, 000	 50	TM 53

	b. extension exceeding 30 days but not exceeding 60 days	2, 000	100	
	c. extension exceeding 60 days	3, 000	150	
14.	Application fee for an application, under r. 108, to amend a document or drawing or other representation, for each trademark: for the first class for each subsequent class	2, 000 1, 000		TM 19
15.	Fee for preliminary advice of the Registrar under r. 20(1): for the first class for each subsequent class	3, 000 2, 000		TM 27

Notes:

1. A foreign fee is payable if the person paying the fee or on whose behalf the fee is being paid does not reside in Kenya and does not have a principal place of business in Kenya.
2. All the prescribed forms and the respective fees payable for matters under the Trade Marks Act and Rules are available at www.kipi.go.ke

6. The International Classification of Goods and Services for the Purposes of the Registration of Marks (Nice Classification)

The Nice Classification is established under the Nice Agreement Concerning the International Classification of Goods and Services for the Purposes of the Registration of Marks, one of the treaties administered by the World Intellectual Property Organization. The Nice Classification was established by an Agreement concluded at a Diplomatic Conference held in Nice on 15th June 1957. Kenya has not ratified the Agreement. However, section 6 of the Trade Marks Act provides that goods and services in respect of which registration of a mark is applied for shall be classified in accordance with the Nice Classification. The following are the class headings under the Nice Classification:

Nice Classification (10th Edition) C L A S S H E A D I N G S

GOODS

- Class 1* Chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry; unprocessed artificial resins, unprocessed plastics; manures; fire extinguishing compositions; tempering and soldering preparations; chemical substances for preserving foodstuffs; tanning substances; adhesives used in industry
- Class 2* Paints, varnishes, lacquers; preservatives against rust and against deterioration of wood; colorants; mordants; raw natural resins; metals in foil and powder form for painters, decorators, printers and artists
- Class 3* Bleaching preparations and other substances for laundry use; cleaning, polishing, scouring and abrasive preparations; soaps; perfumery, essential oils, cosmetics, hair lotions; dentifrices
- Class 4* Industrial oils and greases; lubricants; dust absorbing, wetting and binding compositions; fuels (including motor spirit) and illuminants; candles and wicks for lighting
- Class 5* Pharmaceutical and veterinary preparations; sanitary preparations for medical purposes; dietetic food and substances adapted for medical or veterinary use, food for babies; dietary supplements for humans and animals; plasters, materials for dressings; material for stopping teeth, dental wax; disinfectants; preparations for destroying vermin; fungicides, herbicides
- Class 6* Common metals and their alloys; metal building materials; transportable buildings of metal; materials of metal for railway tracks; non-electric cables and wires of common metal; ironmongery, small items of metal hardware; pipes and tubes of metal; safes; goods of common metal not included in other classes; ores

-
- Class 7* Machines and machine tools; motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); agricultural implements other than hand-operated; incubators for eggs; automatic vending machines
- Class 8* Hand tools and implements (hand-operated); cutlery; side arms; razors
- Class 9* Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment, computers; computer software; fire-extinguishing apparatus
- Class 10* Surgical, medical, dental and veterinary apparatus and instruments, artificial limbs, eyes and teeth; orthopedic articles; suture materials
- Class 11* Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes
- Class 12* Vehicles; apparatus for locomotion by land, air or water
- Class 13* Firearms; ammunition and projectiles; explosives; fireworks
- Class 14* Precious metals and their alloys and goods in precious metals or coated therewith, not included in other classes; jewellery, precious stones; horological and chronometric instruments
- Class 15* Musical instruments
- Class 16* Paper, cardboard and goods made from these materials, not included in other classes; printed matter; bookbinding material; photographs; stationery; adhesives for stationery or household purposes; artists' materials; paint brushes; typewriters and office requisites (except furniture); instructional and teaching material (except apparatus); plastic materials for packaging (not included in other classes); printers' type; printing blocks
- Class 17* Rubber, gutta-percha, gum, asbestos, mica and goods made from these materials and not included in other classes; plastics in extruded form for use in manufacture; packing, stopping and insulating materials; flexible pipes, not of metal
- Class 18* Leather and imitations of leather, and goods made of these materials and not included in other classes; animal skins, hides; trunks and travelling bags; umbrellas and parasols; walking sticks; whips, harness and saddlery
- Class 19* Building materials (non-metallic); non-metallic rigid pipes for building; asphalt, pitch and bitumen; non-metallic transportable buildings; monuments, not of metal
- Class 20* Furniture, mirrors, picture frames; goods (not included in other classes) of wood, cork, reed, cane, wicker, horn, bone, ivory, whalebone, shell, amber, mother-of pearl, meerschaum and substitutes for all these materials, or of plastics
- Class 21* Household or kitchen utensils and containers; combs and sponges; brushes (except paint brushes); brush-making materials; articles for cleaning purposes; steelwool; unworked or semi-worked glass (except glass used in building); glassware, porcelain and earthenware not included in other classes
- Class 22* Ropes, string, nets, tents, awnings, tarpaulins, sails, sacks and bags (not included in other classes); padding and stuffing materials (except of rubber or plastics); raw fibrous textile materials
- Class 23* Yarns and threads, for textile use

-
- Class 24* Textiles and textile goods, not included in other classes; bed covers; table covers
- Class 25* Clothing, footwear, headgear
- Class 26* Lace and embroidery, ribbons and braid; buttons, hooks and eyes, pins and needles; artificial flowers
- Class 27* Carpets, rugs, mats and matting, linoleum and other materials for covering existing floors; wall hangings (non-textile)
- Class 28* Games and playthings; gymnastic and sporting articles not included in other classes; decorations for Christmas trees
- Class 29* Meat, fish, poultry and game; meat extracts; preserved, frozen, dried and cooked fruits and vegetables; jellies, jams, compotes; eggs; milk and milk products; edible oils and fats
- Class 30* Coffee, tea, cocoa and artificial coffee; rice; tapioca and sago; flour and preparations made from cereals; bread, pastry and confectionery; ices; sugar, honey, treacle; yeast, baking-powder; salt; mustard; vinegar, sauces (condiments); spices; ice
- Class 31* Grains and agricultural, horticultural and forestry products not included in other classes; live animals; fresh fruits and vegetables; seeds; natural plants and flowers; foodstuffs for animals; malt
- Class 32* Beers; mineral and aerated waters and other non-alcoholic beverages; fruit beverages and fruit juices; syrups and other preparations for making beverages
- Class 33* Alcoholic beverages (except beers)
- Class 34* Tobacco; smokers' articles; matches

SERVICES

- Class 35* Advertising; business management; business administration; office functions
- Class 36* Insurance; financial affairs; monetary affairs; real estate affairs
- Class 37* Building construction; repair; installation services
- Class 38* Telecommunications
- Class 39* Transport; packaging and storage of goods; travel arrangement
- Class 40* Treatment of materials
- Class 41* Education; providing of training; entertainment; sporting and cultural activities
- Class 42* Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software
- Class 43* Services for providing food and drink; temporary accommodation
- Class 44* Medical services; veterinary services; hygienic and beauty care for human beings or animals; agriculture, horticulture and forestry services
- Class 45* Personal and social services rendered by others to meet the needs of individuals; security services for the protection of property and individuals
