 (57) The invention discloses a method of conveying information from a sender to a receiver by use of various codeword patterns given in a mapping table and detection through decoding via the reverse mapping process. The codeword patterns may be selected as combinations of bits, frequencies, ports, or other elements as desired. Associated systems for carrying out the described encoding methods are also provided. The various methods may be applicable in low transmit power, energy-saving, secure, low latency, storage and in military, mobile, optical, deep space and fixed telecommunication systems for long range transmission and reliable information.

(57) Abstract: The invention relates to novel antimicrobial surfactants and their application in antimicrobial coating systems, in particular water borne coatings. Provided is a method for providing an antimicrobial surfactant, comprising the steps of: (a) providing a hyperbranched polyurea having blocked isocyanates at the end of the polymer branches by the polycondensation of AB₂ monomers; (b) introducing tertiary amine groups by reacting said blocked isocyanates of the hyperbranched polyurea with a tertiary amine compound that is functionalized with -OH, -NH₂, -SH, or -COO-; and (c) quaternization of said tertiary amine groups by reacting with an alkylating agent to obtain a quaternized hyperbranched polymer having antimicrobial surfactant properties.

 (54) Title: FORMWORK DEVICE
 (51) Int.Cl.: B 28B 7/00, B 28B 7/24, B 28B 7/08
 (57) Abstract: The invention relates to a formwork device for a battery mold for producing components, in particular precast concrete parts, having at least two bulkheads. The formwork device has two formwork panels which can be connected together in a releasably articulated manner in order to be converted from an unfolded state into a folded state. Each formwork panel has a formwork front face for attaching formwork elements and a formwork rear face, and the formwork rear faces of the two formwork panels face each other in the folded state. The formwork device is provided for positioning between the bulkheads. The invention further relates to a battery mold comprising at least one formwork device according to the invention, wherein the formwork panels can be inserted into the battery mold in the connected state or in the disconnected state.

 (57) Abstract: Provided is a communication system which is capable of achieving a three-dimensionalized network for fifth generation mobile communication having low wireless communication propagation delay. This communication system is provided with a wireless relay station which relays wireless communication to a terminal device. The wireless relay station is provided to a floating body which is controlled autonomously or from an external unit so as to be positioned in a floating airspace having an altitude of 100 [km] or lower. When the floating body is positioned in said floating airspace, the wireless relay station forms a three-dimensional cell in a prescribed cell-forming target airspace with respect to the surface of the ground or the surface of the sea.

(57) The present invention generally relates to shoes for wearing with different colours and clothes, and more particularly, to fashion sandal shoes having interchangeable a vamp and a top that is detachable each interactable upper part of the vamp can be replaced with a detachable and varied design depending upon the wearer's preference. the invention of providing an item of footwear that is very easy to replace the vamp on the part of any user without resorting to specialised craftsmen. Within this aim, an object of the invention is to propose an item of footwear whose appearance and functional characteristics can be modified by any user without resorting to specialised craftsmen. In particular, a shoe and more preferably a scandal that has an upper part that can be replaced, reused and does not provide any difficulties in attaching to the upper part of the shoe in providing fashionable aesthetic features for user preferences.

11.0 Trade Marks

11.1 Applications accepted for registration

NOTICE is given that any person who has grounds of opposition to the Registration of any of the trade marks advertised herein according to these classes may within sixty (60) days from the date of this Journal, lodge a notice of opposition on form TM. No. 6 (in duplicate) together with a fee of Ksh.5,000/= (local opponent) or US\$ 250 (foreign opponent). The period of lodging the notice of opposition may be extended by the Registrar as he deems fit and upon such terms as he may direct. Any request for such extension should be made to the Registrar to reach him before the expiry of the period allowed.

Formal opposition should not be lodged until after a reasonable notice has been given in writing to the applicant for registration to afford him any opportunity of withdrawing his application before the expense of preparing the notice of opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant.

Representations of the marks advertised herein can be seen at the Trade Marks Registry, Kenya Industrial Property Institute, KIPi Centre, Kabarsiran Avenue Off Waiyaki Way, Lavington, Nairobi.

11.4 Removals

Section 23 of the Trade Marks Act provides that registration of a trade mark in Kenya shall expire after a period of **ten (10) years**. The Act also provides that the proprietor of a registered trade mark may make an application for renewal of the trade mark upon completion of the prescribed Form TM 10 and payment of the prescribed renewal fee.

Rule 65 of the Trade Mark Rules provides that where no application for renewal of a registered trade mark is received upon expiry of the ten year period, the Registrar of Trade Marks shall notify the proprietor of this fact. Where no application for renewal of the registered trade mark is received within a period of **sixty (60) days** from the date of the notice for renewal by the Registrar, rule 67 of the Trade Mark Rules requires the Registrar of Trade Marks to publish this fact.

In accordance with the above provisions, the Registrar of Trade Marks hereby notifies the public that the proprietors of the trade marks indicated below were duly notified and that they did not file applications for renewal of their respective trade marks.

In accordance with the provisions of rules 67 and 68 of the Trade Mark Rules, the public is hereby notified as follows:

- (a) Where the proprietor of a registered trade mark makes an application for renewal of a mark that has been published herein and pays the renewal fee together with the additional prescribed late renewal fee **within thirty (30) days** from the date of this publication, the trade mark shall be renewed and shall not be removed from the Register of Trade Marks;
- (b) Where no application for renewal of a trade mark published herein is received **within thirty (30) days** from the date of this publication, the trade mark shall be forthwith removed from the Register of Trade Marks; and

Once the trade mark is removed from the Register of Trade Marks, the proprietor may thereafter make an application for renewal of the mark upon payment of the prescribed renewal fee together with the additional prescribed restoration fee. The trade mark shall then be restored to the Register of Trade Marks upon the Registrar of Trade Marks being satisfied that it is just to do so and upon imposing such conditions as the Registrar may deem fit.

11.6(a) Madrid Applications accepted for registration

The following are the marks whose international registration has been notified to Kenya as a designated contracting Party by the International Bureau, World Intellectual Property Organization (WIPO) and which are governed by the Madrid Agreement and the Madrid Protocol. The prescribed period of twelve (12) months and eighteen months (18) respectively for refusal of the marks commences from the notification date indicated herein for each mark.

NOTICE is given that any person who has grounds of opposition to the registration of any of the marks may, in accordance with the provisions of rule 11(1) of the Trade Marks (International Registration) Rules 2003, file a notice of opposition within sixty (60) days from the date of this Journal on form TM. No. 6 (in duplicate) together with a fee of Ksh 5,000/= (Kenyan residents) or US\$ 250 (non residents).

The period of filing the notice of opposition may be extended by the Registrar of Trade Marks as prescribed in the Trade Mark Rules. Any request for such extension should be made to the Registrar before the expiry of the sixty (60) day statutory period.

RECKITT

11.6(b) Madrid Applications deemed registered automatically

The following are marks whose international registration has been notified to Kenya as a designated contracting party by the International Bureau. However, the prescribed period of twelve (12) or eighteen (18) months lapsed before the national processing was completed and subsequently were deemed registered automatically in accordance with Article 5(2) of the Madrid Agreement and the Protocol.

NOTICE is hereby given that any person aggrieved by the resultant automatic registration may, in accordance with the provisions of rule 21(2) of the Trade Marks (International Registration) Rules 2003, apply for rectification of the register under Rule 16(3).

All the details of the marks advertised herein are available on WIPO's website www.wipo.int/romarin

6. The International Classification of Goods and Services for the Purposes of the Registration of Marks (Nice Classification)

The Nice Classification is established under the Nice Agreement Concerning the International Classification of Goods and Services for the Purposes of the Registration of Marks, one of the treaties administered by the World Intellectual Property Organization. The Nice Classification was established by an Agreement concluded at a Diplomatic Conference held in Nice on 15th June 1957. Kenya has not ratified the Agreement. However, section 6 of the Trade Marks Act provides that goods and services in respect of which registration of a mark is applied for shall be classified in accordance with the Nice Classification. The following are the class headings under the Nice Classification:
